## RUSSIANS TAKE RIGA POSITIONS FROM GERMANS

Fierce Struggle Preceded  
Capture of Trenches in  
Silsem Sector

## GERMANS TAKE VALUABLE SUPPLIES AT JACOBSTADT

Heavy Cannonading Near  
Ypres On Flanders Front  
Reported By Haig

(ASSOCIATED PRESS TELEGRAM)  
Petrograd, Sept. 24.—Russian  
forces on the Riga front in the  
region south of the Pskov high road,  
yesterday took the offensive and  
after a fierce struggle occupied the  
German positions in the sector of  
Silsem, the Russian war office an-  
nounced today.

## GERMANS CAPTURE SUPPLIES.

(ASSOCIATED PRESS TELEGRAM)  
Berlin, Sept. 24, via London.—  
General von Ludendorff announced  
in the official German statement  
issued today that rich quantities of  
provisions, including bread and  
butter, fell into the hands of the  
Germans when they captured the  
Russian town of Jacobstadt, on the  
Dvina river, last week. The state-  
ment says that the British troops  
made no fresh attacks yesterday on  
the Flanders front.

## GERMANS LOSE MORE GROUND.

(ASSOCIATED PRESS TELEGRAM)  
New York, Sept. 24.—Heavy can-  
nonading was again in progress last  
night on the Flanders battle front  
northeast of Ypres but the infantry  
had a relief from the recent hard  
fighting. The last German reaction  
was not encouraging enough appar-  
ently, to warrant a speedy repul-  
sion, as Field Marshal Haig in his  
dispatch last night reported that  
when the Germans assaulted the  
British lines northeast of Langemarck  
yesterday they not only were  
repulsed but lost ground in a British  
counter drive.  
Signs of possibly important activ-  
ity impending are appearing in other  
sections of the British front,  
notably in the Arras region near the  
Somme, and in the vicinity of Lens,  
which city is still being closely  
pressed by the Canadians. Con-  
siderable artillery activity is announced  
from these sectors. The artillery on  
both sides is also notably busy on  
the French front in the Verdun re-  
gion. Last night its activity reached  
its peak.

## BODY OF FLAGLER WIDOW EXHUMED; CRIME SUSPECTED

(ASSOCIATED PRESS TELEGRAM)  
Wilmington, Del., Sept. 24.—Dr.  
Charles T. Nesbitt, county health of-  
ficer, acknowledged today that he  
had issued a permit for the exhumation  
of the body of Mrs. Robert  
Flagler Bingham. He explained that  
the reason he had without informa-  
tion was that he had been told by  
those seeking the permit that they  
thought a crime had been committed.

## WILL FIGHT CHARGES

(ASSOCIATED PRESS TELEGRAM)  
Louisville, Ky., Sept. 24.—Robert  
Flagler Bingham and his friends here  
today awaiting the next move of  
those who, according to a statement  
issued last night by counsel for  
Judge Bingham in the early hours  
of last Tuesday morning caused the  
body of his wife, formerly Mrs.  
Henry M. Flagler, to be exhumed  
and autopsied and some of the  
vital organs removed and sent to  
New York after which the body pre-  
sumably was reinterred.

The statement issued last night by  
Judge Bingham's attorneys con-  
firmed the first definite assertion that  
Mrs. Bingham's body had been ex-  
humed. The exhuming of the body  
was carried out surreptitiously and  
without notice to Judge Bingham.  
The statement says, adding:  
"It belongs to the public to form  
its own opinion of this ghastly  
crime."

In its concluding paragraph, the  
statement says "whispering of  
suspicion" shall end in the making of  
charges, the charges will then be  
"met with facts."

## PROHIBIT EXPORT OF GOLD TO SPAIN

Washington, Sept. 24.—Treasury  
officials carrying out the govern-  
ment's policy governing the conserva-  
tion of gold have virtually decided  
upon a policy prohibiting the export  
of gold to Spain. No gold has been  
licensed for export to Spain since  
the president's proclamation became  
effective except several small ship-  
ments already loaded aboard steamers.

Exportations of gold to Spain had  
been growing steadily up to the time  
of the president's proclamation. Be-  
tween January 1 and September 1  
of this year the volume approximated  
\$25,000,000. The largest recorded  
in any similar period of time. It  
was adverse to the trade balance  
which was in favor of the United  
States Sept. 1 to the extent of \$50,-  
000,000.

## SIX-YEAR-OLD IS HEIR TO PEERAGE

The small Earl of Madeley.

The little Earl of Madeley is the  
six-year-old son and heir of the  
Marquis of Crewe, Lord Crewe, in  
addition to his distinguished political  
abilities and obligations, was at one  
time a lieutenant in the Yorkshire  
Dragoons. The present Lady Crewe  
was formerly Lady Margaret Prim-  
rose, the daughter of Lord Rose-  
berry.

## SEES GOWARDICE IN GERMAN REPLY TO POPE'S PEACE NOTE

(ASSOCIATED PRESS TELEGRAM)  
London, Sept. 24.—The Manches-  
ter Guardian considers that the Ger-  
man reply to the pope's appeal for  
peace.  
The Guardian says: "We are  
sorry to say it, but we find a good  
deal of moral and political cow-  
ardice in the note. There was only  
one way by which Germany could  
convince the world of the sincerity of  
her return to the humanities, and  
that by explaining why she deserted  
them and what atonement she meant  
to offer. That would have been the  
brave thing to do, but Germany has  
not done it."

The Guardian considers that the  
note shows how far the education of  
the German has progressed in the  
hard school of facts. If not, the  
principles and language of the note  
indicates that the rulers have been  
forced to pay marked deference to  
the views of the reichstag. The  
Guardian draws the conclusion that  
Germany's rulers desire peace with a  
passionate intensity declaring:  
"We must help the German people  
so far as it is possible for us in  
their struggle with their govern-  
ment," and concludes: "But we  
must beware of rallying the forces  
of the enemy by language that will  
help the government to identify it-  
self with the interests of Germany  
and her people which they so shame-  
fully mismanaged."

## PNEUMONIA NOW THREATENS LIFE OF GOV. GOODRICH

(ASSOCIATED PRESS TELEGRAM)  
Indianapolis, Sept. 24.—Bronchial  
pneumonia, which has developed in  
the illness of Governor James P.  
Goodrich of Indiana, has caused his  
condition to become critical again.  
He became ill of typhoid fever sev-  
eral weeks ago. Attending physi-  
cians said today the governor's con-  
dition was satisfactory under the  
circumstances with a possible slight  
improvement over yesterday.

## THIRD DEATH AT CHILLICOTHE CAMP

(ASSOCIATED PRESS TELEGRAM)  
Camp Sherman, Chillicothe, O.,  
Sept. 24.—The third death at Camp  
Sherman since the arrival of the  
first of the selectees occurred last  
night. James R. Miller, Company  
C, 329th Infantry, son of William  
Miller, died of double pneumonia  
after a short illness. Miller's home  
was at Pleasant Hill, Ohio, near  
Troy. The body will be shipped  
home some time today. Arthur Cox  
and James Callahan, both of Cleve-  
land died last Friday.

## FOREIGNERS PLAN TO BUY LIBERTY BONDS

Cleveland, O., Sept. 24.—A mass  
meeting of foreign societies, churches  
and foreign-language newspaper men  
has been called for next Wednesday  
night to organize Cleveland's large  
foreign population and insure its  
adequate representation in the pur-  
chase of the second issue of Liberty  
loan bonds. The Cleveland meeting  
is part of a nation-wide campaign  
for generous support of foreigner-  
resident in this country when the  
new bonds are placed on sale.

## NO BURNS AROUND FATAL WOUND IN MRS. KING'S HEAD

Coroner's Physician Says  
Wound Could Not Have  
Been Self Inflicted

## MEANS PLEADS NOT GUILTY TO CHARGE OF MURDER

Undertaker's Testimony Re-  
veals That Woman's Left  
Ankle Was Broken

(ASSOCIATED PRESS TELEGRAM)  
Concord, N. C., Sept. 24.—Gaston  
B. Means, business agent and confi-  
dant of Mrs. Maude A. King, the  
wealthy widow, whose death has re-  
sulted in a charge of murder being  
brought against him, pleaded not  
guilty at a preliminary hearing be-  
gun here today.

Means, backed by an array of  
counsel, exercised his legal privilege  
of declining to be examined before  
Magistrate Palmer and the hearing  
was conducted by Magistrate Pitts.  
Attorneys representing the state  
of New York and Cook county, Il-  
linois, were present.

Dr. William Burmeister, chief  
coroner's physician of Chicago, tes-  
tified that in his opinion it would  
have been impossible for Mrs. King  
to have held the pistol which inflicted  
her death wound in the woods  
near here on August 23. Means, at  
the coroner's inquest, testified that  
Mrs. King accidentally shot herself  
and that he was several yards away.  
Dr. Burmeister testified that there  
were no powder marks around the  
wound to support the theory that  
Mrs. King's own hand held the re-  
volver.

Lawyers and criminal experts from  
three states are present at the hear-  
ing the object of which is to bind  
Means over to await the action of a  
grand jury.

L. A. Wellington, a Concord un-  
dertaker, told of removing the body  
of Mrs. King from Concord hospital.  
The wound in the head, behind the  
left ear and a fractured left ankle,  
were the only marks on the body.  
Gaston Means and Mrs. Marie Mel-  
vin, Mrs. King's sister, accompanied  
him to Chicago with the body. The  
defense did not examine Wellington.  
Dr. Burmeister told of performing  
his autopsy. He said the wound was  
two inches above the opening of the  
left ear and that there was no evi-  
dence of powder burns. Above the  
left eyebrow was a small hemorrhage.

## M'ADOO IS READY TO ANNOUNCE PLAN FOR LIBERTY BONDS

(ASSOCIATED PRESS TELEGRAM)  
Washington, Sept. 24.—Details of  
the second Liberty Bond issue prob-  
ably will be announced by Secretary  
McAdoo tomorrow. The term of the  
bonds and their denomination, the  
interest rate and the amount of the  
offering constitute the chief details  
which have not as yet been an-  
nounced. Indications are that the  
offering will approximate \$5,000,-  
000,000 and that a bond will run ap-  
proximately 25 or 30 years. The  
interest rate, as fixed by law may be  
up to four per cent and it is consid-  
ered likely that the issue will bear  
the four per cent rate.

## SPANISH WAR VETS MEET IN CLEVELAND

(ASSOCIATED PRESS TELEGRAM)  
Cleveland, Sept. 24.—The nine-  
teenth annual encampment of the  
United Spanish War Veterans  
opened here this morning with San  
Francisco and St. Louis delegations  
making campaigns for the 1918  
meeting.

Auxiliary delegates will meet  
early this afternoon. A reception of  
general officers will be held this eve-  
ning with an elaborate program.

Addresses were made today by  
Captain D. V. Chisholm, commander  
in chief, Charles L. B. Gebauer, past  
department commander in chief of  
Ohio.

The Connecticut department today  
presented a flag to the city of Cleve-  
land.  
St. Louis delegates presented a  
resolution protesting against what  
they termed a disposition to ignore  
Spanish war veterans in the selec-  
tion of officers for the national army.

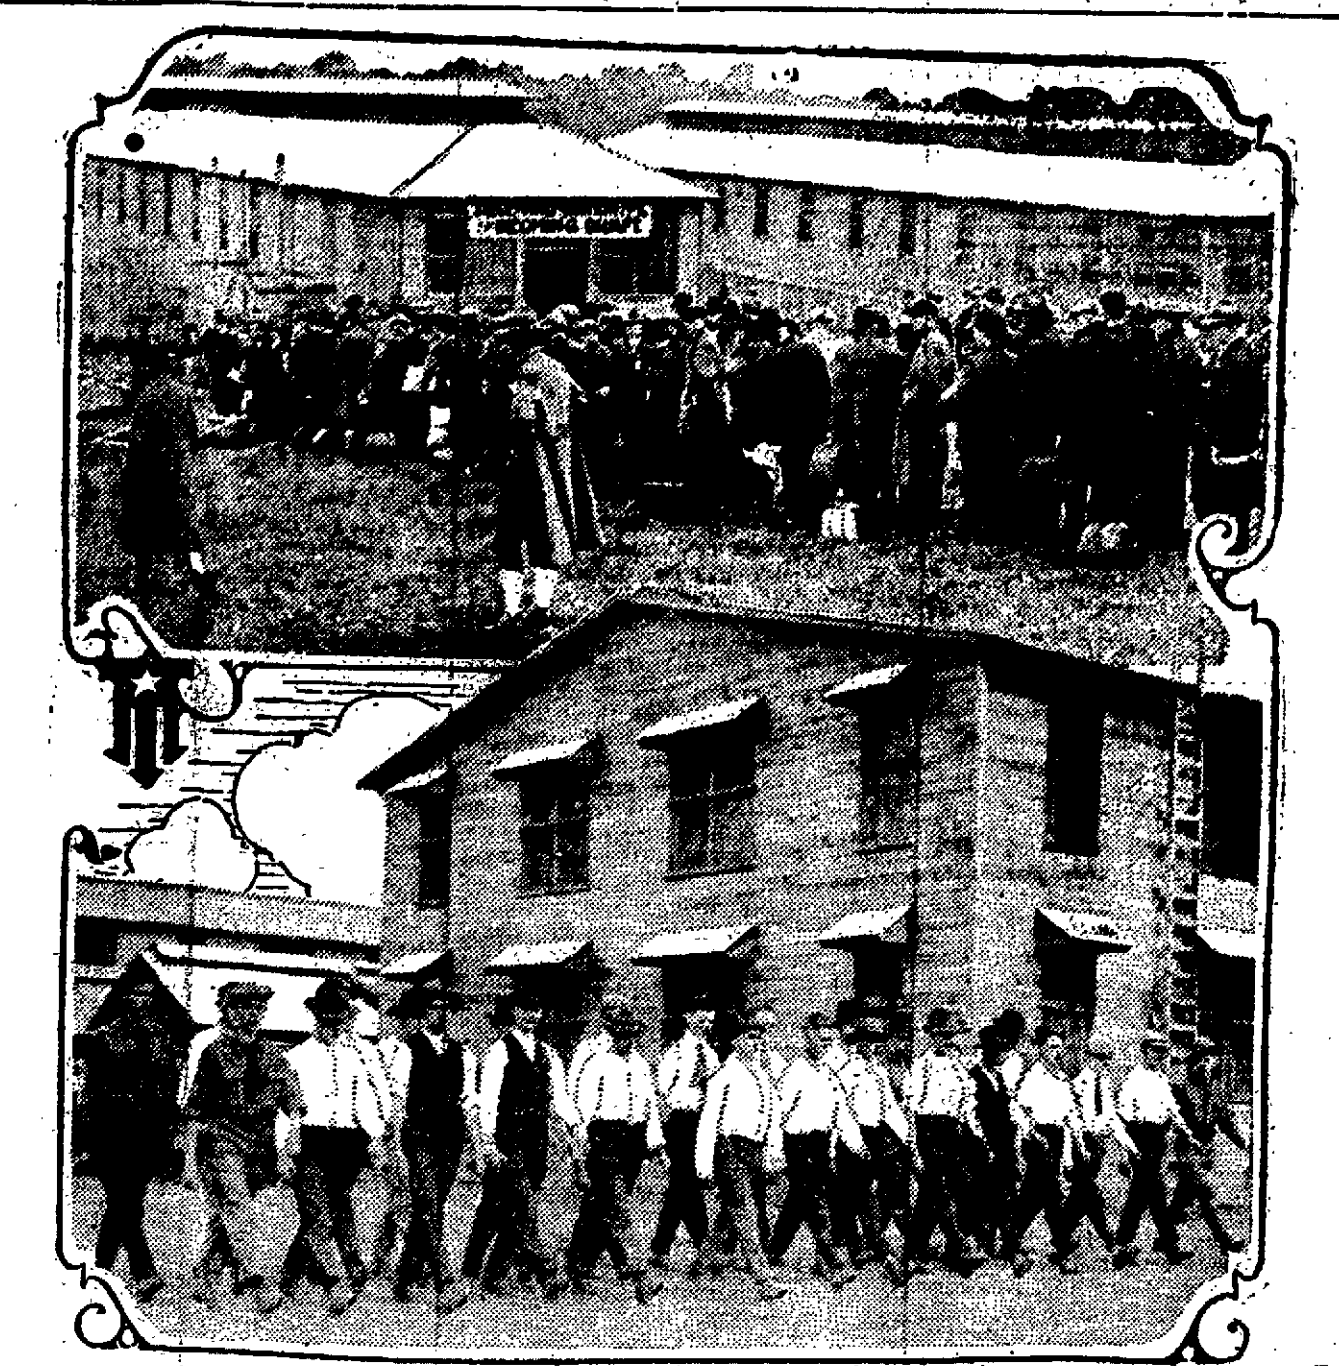

## BARGE CAPTAIN DROWNS.

(ASSOCIATED PRESS TELEGRAM)  
Lewes, Del., Sept. 24.—The cap-  
tain, his wife and the engineer of the  
barge, Western Belle, were drowned  
last night when the barge sank  
about 30 miles off the Delaware  
Capes. A tug, which had the barge  
in tow, signalled that the cook had  
been saved.

## WANT BERKMAN IN 'FRISCO.

(ASSOCIATED PRESS TELEGRAM)  
Albany, N. Y., Sept. 24.—Applica-  
tion for the extradition from New  
York to California of Alexander  
Berkman was made to Governor  
Whitman today by the San Francisco  
police. The governor ordered a hear-  
ing before tomorrow noon on the  
request.

## DRAFTED MEN REACH CAMP ONE DAY AND ARE BUSY DRILLING THE NEXT

Selectives from Ohio and West Virginia arriving at Camp Sherman, Chillicothe, O.; the same selectives down to hard work on the day following.

Drafted men are not given much time to get settled at the training camp. Drilling does not begin on the same day of their arrival, especially if they reach camp late in the day. But on the day following drilling begins. The boys shown here have not yet received their uniforms. So great has been the demand on Uncle Sam for uniforms of late that some of the selectives probably will have to wait several weeks before they get their khaki suits.

## ROME PAPER SEES INDICATIONS MORE FAVORABLE TO PEACE

(ASSOCIATED PRESS TELEGRAM)  
Rome, Sept. 23.—The entire lib-  
eral press continues to attack the  
reply of Germany and Austria in  
the pope's peace proposal as "a  
unique example of revolting cynis-  
m."

The Corriere d'Italia has mod-  
ified the tone of its comment from  
criticism to that of mild approval.  
It says that the replies, although  
"reticent to represent adhesion to  
the papal proposals can be consid-  
ered evidence of the success of the  
pontifical initiative."

The same paper remarks that the  
evolution is noticeable in German  
public opinion towards peace and  
favor of a more democratic govern-  
ment is not likely to be arrested.

## ORDERS FOR SEATS FOR WORLD SERIES SWAMP OFFICIALS

(ASSOCIATED PRESS TELEGRAM)  
Chicago, Sept. 24.—Nearly 1200  
special delivery letters, requesting  
reservations for the world series were  
received on Sunday at the American  
League park here. The regular  
mail containing orders for seats has  
almost swamped the office of Harry  
Grabner, secretary of the Chicago  
club, and early today he made ar-  
rangements to enlarge his force of  
clerks.

## TOLEDO SOLDIERS CLASH WITH COPS

(ASSOCIATED PRESS TELEGRAM)  
Toledo, O., Sept. 24.—Responding  
to a riot-call, three automobile loads  
of policemen rescued three other po-  
lice officers from a crowd of militiamen  
encamped here yesterday. Two  
patrolmen and a city detective, with  
drawn revolvers and backs to the  
wall of a business block, were holding  
the soldiers at bay when police re-  
serves arrived. The three officers  
had been beaten badly in an encoun-  
ter with the militiamen. Six sol-  
diers were arrested and later re-  
leased on demand of the military au-  
thorities. The police say the sol-  
diers were creating a disturbance on  
the streets and resisted police inter-  
ference.

## SHAY'S TRIAL POSTPONED.

(ASSOCIATED PRESS TELEGRAM)  
Indianapolis, Sept. 24.—The trial  
of Dan Shay, former manager of the  
Milwaukee American Association  
baseball club, charged with the mur-  
der of Clarence Buell, a negro wait-  
er, was postponed today until Octo-  
ber 2. It was to have commenced  
here today. Illness of an attorney in  
the case caused the delay.

## ARREST FOUR MEN FOR PHILADELPHIA POLICE MURDER

(ASSOCIATED PRESS TELEGRAM)  
New York, Sept. 24.—The four  
men arrested in this city Saturday  
as fugitives from justice from  
Pennsylvania in connection with the  
murder in Philadelphia of Police-  
man Eppley in a political feud at the  
primaries there last Wednesday were  
here without bail here early today  
for hearing Saturday. The men are  
Ruggiero, Falcone, Louis Brunelli,  
Michael Dennehy and William Burk-  
hardt.

Assistant District Attorney Joseph  
Polane of Philadelphia represented  
the authorities at the proceedings  
here.

Falcone and Burkhardt were fur-  
ther identified today by persons  
from Philadelphia as men seen  
there Wednesday. Detective Leo, of  
that city recognized Falcone as a  
man he had seen in the vicinity of  
the alleged crime.

District Attorney Martin of Bronx  
county, New York City, has gone to  
Philadelphia to confer with the dis-  
trict attorney. Assistant District  
Attorney Mack who represented Mr.  
Martin here today, said that his of-  
fice would work in co-operation with  
the Philadelphia authorities but if  
sufficient evidence is found showing  
a crime was planned in Bronx county  
prosecution would be pressed here.

## HEFLIN AGREES TO NAME SUSPECTS IF HOUSE DEMANDS IT

Washington, Sept. 24.—The house  
had a wild and noisy session today  
over the disclosure that Count von  
Bernstorff, while German ambas-  
sador here asked his government to  
authorize the expenditure of \$50,000  
to influence congress. Representa-  
tive Norton of North Dakota attack-  
ed Representative Heflin of Alabama  
who was quoted in a local newspaper  
as saying he could name a dozen  
congressmen who had been acting  
suspiciously. Heflin denied that the  
interview attributed to him was cor-  
rect. Heflin's explanation was that  
he did not know a single member of  
the house who ever had received  
German money in any way and that  
he did not charge that any had re-  
ceived it. He merely suspected some  
because of their actions, he said. If  
the house should decide to investi-  
gate his charges he would be glad  
to name the suspects, he added.

## SUNDAY ACCIDENTS TAKE LIVES OF TWO AKRON MEN

Akron, Sept. 24.—Two men are  
dead and several persons injured in  
automobile accidents near Akron  
over Sunday. John L. McConnell,  
32, Cuyahoga Falls, was killed in a  
crash at Northampton, south of  
Cleveland and Frank Romske, 33,  
Akron, was killed near Kent yester-  
day. Robert R. Raymond, Akron  
motorcycle racer, was probably fat-  
ally injured at a race track yester-  
day.

## U. S. ARMY AVIATOR CHANGES SEATS IN MACHINE IN MOTION

(ASSOCIATED PRESS TELEGRAM)  
Rantoul, Ill., Sept. 24.—Officers  
at the army aviation school here de-  
clared today the feat of Major Max-  
well Kirby, who changed seats in an  
airplane at an elevation of more than  
1000 feet, was the first of its kind  
ever accomplished in the United  
States.

Major Kirby arrived Saturday from  
Dayton, O., where he was in charge  
of an aviation school. He made his  
initial flight here yesterday, ascend-  
ing alone in the rear seat and using  
a stick-control. When the airplane  
was a quarter of a mile in the air  
and running at the rate of a mile-a-  
minute, the major climbed to the  
front seat and took the wheel-con-  
trol of the machine, making the de-  
scent without mishap.

## MR. DEEDS ESCORTS ALLIED AIR MEN TO AVIATION SCHOOL

(ASSOCIATED PRESS TELEGRAM)  
Dayton, Sept. 24.—Colonel E. A.  
Deeds of the National Aircraft Pro-  
duction board, accompanied by rep-  
resentatives of the British royal  
flying corps and the French flying  
corps visited the Wilbur Wright  
Federal Flying field yesterday on a  
tour of inspection. The visitors were  
impressed with the  
greatest flying school in the world  
located near here and the foreign  
flyers especially predicted that with  
the United States maintaining avi-  
ation schools of this type and effi-  
ciency it was little wonder the allied  
powers are figuring on winning the  
war in the air and carrying the aero  
battle right over Berlin. The party  
has returned to Washington.

## 30 PER CENT MORE GOES NEXT WEEK

(ASSOCIATED PRESS TELEGRAM)  
Columbus, Sept. 24.—Provost  
Marshal General Crowder today  
wired Governor Cox from Washing-  
ton that the next increment of Ohio  
for the new national army will be  
sent to Camp Sherman, Chillicothe,  
beginning Oct. 3rd. This increment  
will be made up of thirty per cent  
of the state's quota and will be ex-  
clusively of white men.

## LOAD CARS HEAVIER.

Chicago, Sept. 24.—Striking evi-  
dence of the new era of good feel-  
ing between the railways and their  
patrons is found in the fact that the  
Western Classification Committee  
with headquarters in Chicago, has  
abandoned its plans to obtain gener-  
al increases in tariff provisions as to  
carload minimum weights, through  
approval by the federal and state  
commissions.  
Instead of such legal mandates,  
the railroads will rely on the volun-  
tary co-operation of shippers in the  
campaign for heavier loading of  
cars.

## BIG REDUCTION IN STEEL PRICES ARE AGREED UPON

Producers and Government  
Cut Prices 43 to 70  
Per Cent

## STEEL STOCKS DECLINE ON WALL STREET MARKET

Bars Now \$2.90 Per Hun-  
dred Instead of \$5.50  
Charged Recently

(ASSOCIATED PRESS TELEGRAM)  
Washington, Sept. 24.—Uniform  
steel prices for the American gov-  
ernment, the public and the allies,  
which represent reductions of from  
forty to seventy per cent in present  
market quotation were approved to-  
day by President Wilson.

The prices were determined in an  
agreement reached between steel pro-  
ducers and the war industries board  
after conferences lasting more than  
a month. They were based on cost  
of production figures furnished by  
the federal trade commission, which  
made an investigation at the presi-  
dent's direction.

War powers conferred in the pri-  
ority of the agreement at the war  
industries board will supervise dis-  
tribution of steel in a manner best  
calculated to win the war.  
The agreement reached stipulates  
that there shall be no wage reduc-  
tions in the steel industry and that  
producers shall exert themselves to  
maintain capacity production.  
The prices will become effective  
immediately and are subject to re-  
vision January 1, 1918.

(ASSOCIATED PRESS TELEGRAM)  
Washington, Sept. 24.—Steel  
prices agreed upon between the gov-  
ernment and producers were an-  
nounced today as follows:  
Steel bars at Pittsburgh and Chi-  
cago, \$2.90 per hundredweight. The  
recent price was \$5.50.

Other prices agreed upon, all sub-  
ject to revision January 1, 1918; but  
to become effective immediately fol-  
low:  
Iron ore, basic, lower lake ports,  
price agreed upon, \$5.05, gross ton;  
no charges for freight.  
Coke, Connelville, price agreed  
upon, \$6 net ton; recent price \$12.50  
ton. A reduction of \$2.50 per ton.  
Steel plates: Basic Chicago and  
Pittsburgh, prices agreed upon, \$3.25  
hundredweight; recent price, \$11  
hundredweight. A reduction of  
70 1/2 per cent.

Pigiron: Price agreed upon,  
\$38.00 gross ton; recent price,  
\$58.00 gross ton. A reduction of  
43.1 per cent.

Steel bars: Pittsburgh and Chicago  
(Continued on Page 2, Col. 4.)

## BANDITS 'HOG-TIE' FOUR AND ESCAPE WITH \$100 IN CASH

(ASSOCIATED PRESS TELEGRAM)  
Canton, O., Sept. 24.—Two armed  
youths entered the clothing store of  
William Teplinsky, in the central  
section of Canton, at noon today,  
bound, gagged, and then robbed  
Teplinsky, two clerks, and an ex-  
press messenger, and made their es-  
cape with about \$100. The bandits,  
one of whom was about 17 years old,  
spent half an hour in the store.

## STEEL WORKERS GET GOOD WAGE INCREASE

(ASSOCIATED PRESS TELEGRAM)  
Johnstown, Pa., Sept. 24.—Fifteen  
thousand steel workers, employees of  
the Carnegie Steel company and the  
Lorraine Steel company here, were  
today notified that effective Oct. 1,  
their wages would be increased ten  
per cent.

## SMALL PARTIES MAY FORM AN AGREEMENT

(ASSOCIATED PRESS TELEGRAM)  
Chicago, Sept. 24.—A political  
working agreement among the prohi-  
bitonists, progressives, socialists,  
single taxers and union labor is said  
to be the purpose of a conference  
to be held here Oct. 3.

There will be one hundred dele-  
gates, 20 from each contingent, and  
they will meet behind closed doors.  
Virgil G. Hinshaw, chairman of  
the national committee of the prohi-  
biton party would not predict that  
the new party was to be formed.

## CLEVELAND SOLDIER ACCIDENTALLY KILLED

(ASSOCIATED PRESS TELEGRAM)  
Cleveland, Sept. 24.—Private Al-  
fred McNellis, of Company K, Fifth  
Ohio Infantry was accidentally shot  
and killed here today while his com-  
pany was making preparations to en-  
train for Montgomery, Ala. Corporal  
Hans Tonne was examining a revo-  
lver which he thought was not loaded  
and when he pulled the trigger the  
bullet struck McNellis in the head.  
McNellis died shortly afterward in a  
hospital.

## 25,000 MEN NOW AT CAMP SHERMAN; DRILL WORK STARTS

(Associated Press Telegram)  
Camp Sherman, Chillicothe, O., Sept. 24.—A special train bearing Akron and Summit county selectives and the last of the west Pennsylvania troops brought in the final contingent of "40 per cent men" today.

Camp Sherman, the Ohio cantonment had a population today well over the 20,000 mark. It includes 1,300 Third Regiment, Ohio national guard troops, 2,200 who came as the "five per cent" contingent the week of Sept. 5, 16,000 Ohio selectives who came since last Wednesday and about 2,000 west Pennsylvanians. With the 720 regular army non-commissioned officers sent here as instructors, a troop of cavalry that has charge of all livestock in camp and officers of each regiment, Uncle Sam's payroll at Camp Sherman will have very close to 25,000 names on its list this week.

"Draftees got busy at the war game this morning. There were a number laid up from effects of vaccination and inoculation. "The shot in the arm" brought painful sickness to some of the selectives. But officers expected that since the reaction is not at all dangerous, they will let the men off with minimum work.

The general program for new arrivals varied in each regiment, depending on the announcement of the general training instructions later this week from Major General E. F. Glenn's headquarters, called for a half hour of calisthenics and recruit instruction up to 8:00 o'clock. From 8:00 to 10:30 drilling or the school of the soldier and squad was carried out. An hour's practice march before noon mess rounded out a full morning. A half hour study in courtesy and of insignias on service uniforms and of officers and non-commissioned officers, that the new soldiers will know their superiors, was the first work of the afternoon. From 2:00 to 5:00 o'clock all the men got another course in school of the soldier and the squad. This is learning to march, make turns, keep in step and the like. The three hours was shortened by having pre-

scribed exercises and games at intervals.

This will be about the program for the remainder of the week for the forty per cent men. The first or five per cent men are aiding in teaching their neighbors, having had a two weeks' start at the business.

Next week and the week following will bring the full eight hours of drilling that has been mapped out for all selective draft soldiers in all the cantonments in the United States. Later when the men become proficient at this work, the more technical drilling at manual of arms and trench warfare is to begin.

## RUSSIANS TAKE RIGA POSITIONS FROM GERMANS

(Continued From Page 1)

the stage of intense violence north of the fortress in the Fosses and Chaumes wood regions, Paris reports.

Although suffering a heavy reverse in the recent German operation in the Jacobstadt region, the Russians on the Riga-Dvinsk front are showing recuperative power and today a substantial Russian victory is reported in the sector south of the Riga-Pskoff road.

Taking the offensive here, the Russian forces captured the German position they attacked, retaining them after a hard struggle. The German losses were more than 400 in killed and the Russians took a number of prisoners and 10 machine guns.

The object of the Russian command in initiating this attack and other not dissimilar operations recently reported from this front may very likely be the rectification of the line east of the Dvina at points where it is now weak. The need of strengthening it where possible is suggested by the assumption on the part of some of the Russian military critics that it is the aim of the Germans, after establishing themselves on this bank of the stream, to push along it to the southeast for the reduction of Dvinsk, the keystone of the Russian line on the northern front.

The Berlin official statement today claims the capture of large quantities of provisions by the Germans when Jacobstadt, on the Dvina, was taken in last week's assault.

## AIR MEN STILL ACTIVE ALONG FRENCH FRONT

(Associated Press Telegram)

Somewhere on the front, Saturday, Sept. 22.—Lieutenant Raoul Lufbery of Wallingford, Conn., one of the most prominent members of the Lafayette Flying corps, continued his aerial exploits today when he destroyed one German machine and forced another to land near the front lines. Sergeant Kenneth Marr of San Francisco, was attacked by four German machines and forced to land when the wires controlling the elevating planes of his airplane were cut by bullets.

The members of the Lafayette squadron witnessed a fight over their own field this morning when French flyers of another squadron forced down a German machine which crashed to earth a mile away.

### EMPEROR VISITS RUMANIA.

(Associated Press Telegram)

London, Sept. 24.—Emperor William, says a dispatch from Amsterdam, has visited the Rumanian fields in Rumania and inspected the troops which participated in the campaign in Transylvania and Rumania in the autumn of 1916. The troops are now on the Moldavia battle front. Addressing the troops, Emperor William pointed out the world wide historical importance of this fight which he said was also of great importance economically for the home lands. The emperor concluded with the declaration that if war was to continue it was not the Germans' fault.

## AMERICANS LONG FOR OPPORTUNITY TO MEET THE GERMANS

Somewhere Along the British Front in France, Sunday, Sept. 23.—

(By the Associated Press)—On a historic battlefield which merges into the fighting lines are encamped many American troops, far removed from the rest of their compatriots who form the vanguard of Uncle Sam's expeditionary force in France. For military reasons it is impossible to tell the world just where these men are, who they are, or what they are doing to further the interests of the allied cause, but it may be said on authority to friends at home that they are a credit to the Stars and Stripes which for the first time in history fly over a camp of American soldiers in this part of the war-torn world.

Some of them have been working continually in a zone covered by German guns and already two of their number have been wounded, a fact whereof they are exceedingly proud. The Associated Press heard them out. The visit involved a long motor trip, but the sight of their bronzed faces and the sound of their cheerful determined voices, more than re-paid for the long journey. They are a fine, healthy-looking lot and nearly two months of hard work in the open under campaigning conditions has put them in shape and they are ready for anything.

Especially are they prepared and anxious to try honors with the Germans. In fact, their only grievance is that for the present they are not permitted, except where necessity demands, to expose themselves to the enemy's big guns. They want to feel that thrill that one experienced when explosives are going up all about and when shells herald their approach across No Man's Land with a wicked whine which gives notice that in a fraction of a minute deadly bits of ragged steel will be flying in all directions. In fact, until a stringent order was issued recently the American officers had a hard time keeping their men out of the British front line trenches. It is said that more than one American soldier has crept away, when off duty, and after making friends with the "Tommy's" has taken his place beside them for a few glorious minutes while a battle was progressing.

## NO BURNS AROUND FATAL WOUND IN MRS. KING'S HEAD

(Continued From Page 1)

under the skin, but no abrasion outside. He told of finding the leader portion of the bullet on the right side of the brain, having been deflected by the front of the skull. The steel jacket of the bullet was found on the left side of the head near the channel through which the bullet passed. He then described the fractured ankle, saying it had occurred during life. By the length of the right forearm, he said, there was no question but that Mrs. King was right-handed.

Solicitor Clement asked Dr. Burmeister if it would have been possible for Mrs. King to have inflicted the wound upon herself. The defense objected that this was not a question for an expert but a matter of common knowledge, and also that Burmeister had not qualified as an expert on pistols, even if it were granted that the question was an expert one. The witness was allowed to answer. He stated it was his opinion Mrs. King could not have inflicted the wound.

It was planned to hold a second inquest, but counsel for the state abandoned that plan and had Means arrested.

This resulted in setting the preliminary hearing in place of the second inquest, which was to have been opened today.

At the first inquest, Means testified that Mrs. King accidentally shot herself, and the coroner's jury returned a verdict to that effect after hearing him and a number of witnesses. Exhumation of the body after it was taken to Chicago and buried and investigation by District Attorney Swann in New York where Mrs. King formerly lived, followed the first inquest and resulted in Solicitor Clement's decision to reopen the investigation here.

Solicitor Clement late last night went to the jail at Means' request and there the latter reiterated his innocence and according to counsel for the prosecution with him declined to make public just what passed between them.

It was said, however, that Clement advised that Means wait until today's hearing.

Dr. Burmeister, cross examined on the powder burns, testified that a pistol shot fired at ten inches from a blotter left powder marks on the blotter. Replying to questions tending to show that if the woman's hair had been down when she was shot that the presence of the hair would have prevented the powder burns on the skin beneath the hair.

There was evidence, he said, that the hair had been singed or burned by the explosion when the shot was fired.

F. F. Ritchie of a local hardware firm told of selling to Gaston Means on August 29 a 25 calibre automatic pistol for target practice. Means first asked for a 32 calibre pistol, he said, but Ritchie had none. He also told of Means buying another pistol and rifle shortly before that date.

W. S. Bingham, a member of the party which went target shooting when Mrs. King was killed, was called next.

Mrs. King, Gaston Means and Gaston's brother, Afton Means and himself made up the party, Captain Bingham said. When they arrived at Blackwelder Springs where Mrs. King was killed, he said, the moon was down and the moon was visible. He walked about 140 yards away from the spring hoping to shoot a young

rabbit with his rifle and then a shot was fired. He heard Gaston Means calling him and Afton Means to hurry up to the spring. He found Gaston and Afton at Mrs. King's side. Gaston was bathing her head. He said Mrs. King appeared to be dead when he got there.

Bingham said he helped put the body in the car and they brought it to town.

About 11:00 o'clock that night Bingham said Brandon Means called for him and took him to Gaston Means' home where it was suggested by one of the brothers that they go back to the spring and get a gun they left there. Bingham said he did not go. Bingham also said Gaston Means asked him not to talk about the affair.

On the elimination Bingham said he had frequently been on target shooting trips before with Mrs. King and Gaston Means and had seen Mrs. King shoot an automatic pistol previously. When he arrived near the spring he heard Gaston say to Afton: "Maud has shot herself accidentally with this little pistol."

## BIG REDUCTION IN STEEL PRICES ARE AGREED UPON

basis, price agreed upon, \$2.90 per hundredweight; recent price, \$5.50 per hundredweight. A reduction of \$2.60 per cent.

Steel shapes, basis Chicago and Pittsburgh: Price agreed upon, \$3.00 hundredweight; recent price, \$6.00 hundredweight. A reduction of 50 per cent.

This announcement of prices agreed upon after many months of investigation by the federal trade commission and conferences between government officials and the leading men of the iron and steel business, was accompanied by the following statement:

"It was stipulated, first, that there should be no reduction in the present rate of wages; second, that the prices above named should be made to the public and to the allies as well as to the government, and third, that the steel men pledge themselves to exert every effort necessary to keep up the production to the maximum of the past, so long as the war lasts."

"Measures will be taken by the war industries board for placing orders and supervising the output of the steel mills in such manner as to facilitate and expedite the requirements of the government and its allies for war purposes and to supply the needs of the public according to their public importance and in the best interest of all, as far as practicable."

"A spirit of co-operation was manifested by the steel men and no doubt is entertained that every effort will be made to bring the production as nearly as possible up to the extraordinary demands resulting from the war."

### STEEL PRICES DECLINE.

(Associated Press Telegram)

New York, Sept. 24.—The announcement early this afternoon of the steel prices agreed to by the government and producers was immediately followed in the stock market by a decline of 1 to 2 points in quotations for shares of the steel companies which till then had been strong. United States Steel sold down from 110 7/8 to 109 1/2, and shares of other steel companies were similarly affected.

## EDITOR IN GERMANY REGRETS EXPOSE OF BERNSTORFF'S WORK

London, Sept. 24.—In commenting on the latest Washington disclosures concerning the activities of Count Von Bernstorff, former ambassador to the United States, the Koelnische Volks Zeitung, according to an Amsterdam dispatch to Reuters Limited, says:

"This affair, if true, has a very disagreeable character and it is highly regrettable. The American government, God knows how, was able to get a hold apparently of the whole collection of German diplomatic documents, which it is now exploiting against us and Sweden. What the state department remarks about the relation between Von Bernstorff's policy and the u-boat war can be recognized as a misleading investigation by everyone who knows the history preceding the u-boat campaign."

## VIRGINIAN WAS BEACHED WHEN ATTACKED BY SUBS

Halifax, N. S., Sept. 24.—The British steamship Virginian of 8827 tons, formerly an Allen liner in trans-Atlantic passenger trade, is said to have been one of the victims of the massed attack by German submarines on a convoyed fleet of British merchant vessels off the Irish coast early this month. Persons arriving at an American port on Saturday brought word of this attack, their statements setting forth that five merchantmen and two conveying destroyers were sunk.

An officer on a steamship now in Halifax said that eight merchantmen, including his own, and not five were destroyed, and that the Virginian seriously damaged and in a sinking condition managed to make the beach. The officer was unable to say definitely whether any u-boats were sunk by destroyers, as reported previously.

"We were scattered over quite an area and our ship had her own chance in getting away," he said. "The destroyers were busy, however, and I am quite sure some of them got what they were aiming at."

In August, 1914, the Virginian was one of the first steamships to sail from Liverpool with Americans returning from European war zones. The vessel was one of the steamships which responded to the Titanic's wireless for aid but arrived too late to be of assistance.

## Tell them to go ahead

You might as well have the use of that building you are planning—there is nothing to be gained by waiting. There is no prospect of prices going down for some time after the war is over. Go ahead and let your contracts. When it comes to the roof you can make a real saving, and get a better roof by specifying

## Certain-teed Roofing

CERTAIN-TEED is not cheaper because the quality is lower, but because it is a less expensive roofing to manufacture. It is better, not only because it is cheaper, but also because it is light weight, weather-tight, clean, sanitary, fire-retardant and costs practically nothing to maintain. It is now recognized as the preferable type of roofing for office buildings, factories, hotels, stores, warehouses, garages, farm buildings etc., where durability is necessary.

CERTAIN-TEED is guaranteed for 5, 10 or 15 years, according to thickness (1, 2 or 3 ply).

There are many roll roofings on the market, but only one CERTAIN-TEED. It pays to get the best. It costs no more to lay a CERTAIN-TEED roof than it does to lay a poor roof, but there is a vast difference in the wear. You can't tell the quality of a roofing by looks or feel. Your only safety is in the label. Be sure that it is CERTAIN-TEED—then you are certain of quality and guaranteed satisfaction.

## FOUR THOUSAND JOIN OREGON SHIP STRIKERS

(Associated Press Telegram)

Portland, Ore., Sept. 24.—Approximately 4,000 workmen in three Portland steel ship yards laid down their tools today and joined the 3,000 men who walked out of the Portland wooden ship yards recently to enforce their demands for higher wages and the closed shop. Work on government contracts at the steel yards was halted.

### KILLED IN STREET FIGHT.

(Associated Press Telegram)

Akron, Sept. 24.—Louis Bedoces, 42, Akron, died yesterday from injuries suffered in a street fight late Saturday night. Frank Klave, 41, Akron, is being held on the charge of having caused Bedoces' death.

Berkman is the anarchist who now is in the Tombs prison, N. Y., because of his alleged connection with the plotting which led up to the bomb outrage at a San Francisco preparedness day parade in July, 1916. The application was presented today by Emil Stern of the San Francisco police department. Berkman was recently convicted in federal court of conspiring to obstruct the operations of the conscription law and was sent to the federal prison at Atlanta. Later he was temporarily released on a legal process and has since been confined in the Tombs prison.

### ARMY OFFICERS PROUD OF MATERIAL TO BUILD A GREAT FIGHTING MACHINE

(Associated Press Telegram)  
Camp Sherman, Chillicothe, Sept. 24.—No political gathering, no exposition, no convention of any sort has ever produced the wonders, the oddities or the interesting views of men that the assembling here last week of 45 percent of the selective draft army from Ohio and Western Pennsylvania has given army officers, veterans though they are in such things.

Each drafted man, strange to what he was about to go through, strange to military affairs, strange to the men directing him and strange even to the surroundings, might have afforded a subject for an interesting study as he stepped from the train to the barracks, from the making of the new National Army.

Few outsiders other than newspaper men had opportunity of seeing the arrival of the men and their first experience with military life—the detachment, the first roll call, the marching away to quarters and then the start of physical and other examinations.

"I wonder what they are thinking," was the question uppermost in the minds of officers, many of whom expressed the question in words.

Men who have been leaders in things, who have known nothing else but leadership, were ready to receive their first orders along with the fellows who ways knew nothing else than the instruction given them from someone else.

For the most part, the selected men acted and appeared as might one in the dark. They were prepared and they expected to be led. The slightest suggestion or order was obeyed mechanically.

It was an unusual spectacle! There was every sort of man, from the well-groomed "best family" young blood to the downy-mouthed, heavy-eyed foreigner who could understand nothing of the orders but did as his neighbor. There were men in good clothes, in old clothes, in all sorts of clothes. There were men wearing caps, men with straw hats, sombreros and bared-headed men. There were men with heavy army shoes, men in close-fitting button shoes, men in sapling plow shoes and men in soft-soled gymnasium shoes.

There were men with fine handbags in which were other fine things. There were fellows with paper-wrapped personal effects and many a one contained the "good-bye" good luck. God bless you" little offering of mother, dad, sister, brother and sweetheart. There were men who carried no bundles—men who appeared to have come from their usual day's toil direct to the army training camp.

There were the stolid, impassive ones; there were nervous, excitable ones and there were those who always have that presence of mind and bearing that characterizes them and whatever the circumstances.

There were those who answered "here" in a deep, well-learned voice at the first roll call and there were those who didn't answer, but stopped forward three paces as all were required to do, and those who scarcely could be heard. And there were those who walked with a certain surety about them; those of erect, manly bearing—and then those who shuffled along as if from habit, perhaps the outgrowth of long hours of hard, manual labor.

These were the things the old regular army officers noticed as they watched or aided in the directing of the strange recruits—a great majority of whom never before had been in the rank and file of army life.

The draft recruits came as "just men." There were no certain individuals, no elect, no touted, no favored ones. There was no chance for personality to show itself. Every man came on the level with his neighbor—just a man. And so he was viewed and handled.

The "re-making" is under way. They will come the play of personality, of brain, of brawn. Then will individual eccentricities be found out, willingness noted, the quick-to-learn discovered.

with the fellow, whoever he might have been, who soon will be "brother" in the big family of fighting men.

And with it all—this strangeness and seriousness of the first hour in Camp Sherman—the veteran army men stood back and marveled at the men given them in trust. They saw in the crude material for the greatest fighting machine America ever has known and probably the greatest the whole human race has known.

Personal appearances and actions didn't count with these veterans in the war business as they took the men into the army fold. They saw just the fine type—the physical, the youthful and the intellectual qualifications—for the making of a National Army, an army that must be moulded and whipped into fighting men quickly and effectively.

Building of permanent roads is under full swing these days at this big military camp, where drafted men from Ohio and Western Pennsylvania are receiving military training.

Fine rock highways have been laid out by engineering officers to sections of the camp, especially where store rooms are located, and big forces of men and teams are engaged in finishing them as standard military roads. More than 200 teams have been used for surface dressing from the Scioto river, nearby. Wagons are loaded by hand, by tipple and by a steam scoop.

Several ponderous steam rollers are used to pack and smooth the surface. Wagons, automobiles and motor trucks have been bumping over corn and wheat fields, garden patches and pastures, which were military posts. Army chauffeurs and "mule skinner" will appreciate the improvement perhaps more than any others, for there has been rough riding so far.

### OHIO SOCIETY OF NEW YORK TO HELP BOYS OF 166TH REGT.

Editor of The Advocate—The Fourth Ohio Regiment (now the 166th U. S. Infantry) including many Newark boys, is camped at Camp Mills, Garden City, Long Island, and the Ohio Society of New York is endeavoring to help provide comforts, not furnished by the government and difficult to obtain, such as literature, tobacco, music, etc. Hundreds of books, magazines, thousands of smokes and several phonographs with records, have already been delivered to the Ohio soldiers. The boys want more than any thing else athletic equipment.

The New York troops have been given plenty of money and extras, but the Ohio soldiers have received practically nothing. Won't you try to raise a fund in your locality and forward to this committee of the society any amount you may collect for the purchase of the desired equipment? This committee has taken the matter up with the officers and men of the regiment and know just what they want. The things required cannot be obtained on the other side and must be bought at once, for the soldiers may leave Camp Mills for Europe within a short time.

The boys will greatly appreciate anything you can do to aid them, and your subscriptions will be judiciously expended. Send all communications to the Ohio Society, Waldorf-Astoria, New York City.

### LICKING COUNTY'S SOLDIER BOYS

Editor of The Advocate: Acknowledging receipt of the bronze medal given by the Licking county people to the Licking county soldiers and sailors of '17, in behalf of the 34th Regiment of Heavy Field Artillery, we wish to express our deepest gratitude and great appreciation for the same. We wish especially to thank Mr. Charles Spencer, as we understand he was the guiding spirit and we hold the favor in high esteem. We also wish to express our deep feelings to the thousands for the magnificent patriotic demonstration in bidding us farewell for an unlimited length of time to do our part towards preserving the freedom of the civilized nations of the world. We feel it would not have been possible to give us a more royal send off. We feel in this respect that Licking county was not excelled by any other part of the state. Leo T. Prior, H. W. Allison, Vincent J. Carr, Committee.

Editor of The Advocate: I wish to thank you and the people of Licking county for the beautiful medal which I received. I deeply appreciate this token and am proud of it. Robert Africa, Great Lakes, Ill.

Editor of The Advocate: The undersigned would like one of The Advocate service medals sent to Hubert G. Shuttles of Granville. He enlisted in the signal reserve corps. One son has already received a medal, he being located at the U. S. Navy Hospital, Brooklyn, N. Y. Respectfully, Mrs. Margaret Shuttles, Box 495, Granville, O.

Editor of The Advocate: Please change my address from Deaf and Dumb School, Columbus, O., to Camp Sheridan, S. A. A. T. No. 4, 37 Div. Ohio, Montgomery Ala. Yours truly, Vawn Showman.

Editor of The Advocate: I notice in yesterday's issue of The Advocate that you are still receiving contributions for the soldiers. I enclose check for two dollars for said purpose. Yours truly, A. Nelson Dodd.

Editor of The Advocate: I received the bronze medal and wish to express my thanks to the Newark Advocate and the loyal people of Licking county. We hope the boys from Licking county who are engaged in this great war, will uphold the standard set for us by our forefathers years ago. It seems as we read history, the main factors, all hailed from good old Licking county. We all hope that after this great contest has been settled, the next generation can read about the part that the Licking county boys played. I am at present detailed for the Naval Hospital here caring for the sick. Yours truly, John I. Price, Naval Hospital, Newport, R. I.

Editor of The Advocate:—Eugene R. Simpson of Utica, son of W. A. Simpson, enlisted in the navy June 17, 1917 and his present address is U. S. S. Arkansas, 8th Division, care postmaster, New York. Another Utica boy who has enlisted in the army on July 11 is Alva L. Dove, Co. C, 3d O. F. A., Camp Sheridan, Montgomery, Ala. Will you please send service medals to these two men?—Advocate Reader.

Both Mr. Simpson and Mr. Dove are on the Advocate's record and medals will be mailed to them on Sept. 24th.

The cost of 750 bronze service medals for Licking county soldiers and sailors including postage and engraving is \$567.49. The total contributions to The Advocate's service medal fund up to Saturday night was \$497.93 leaving a balance of \$69.51 needed. As stated in previous issues, the exact amount needed can not be stated until the distribution is completed. For example, The Advocate has bought 750 medals but possibly some of them may not be needed and if so the engraving bill will not reach the estimate. On the other hand a call for more men may make it necessary to increase the order.

When the medal fund was started nobody thought that more than 400 medals would be required but at ready over 450 have been issued to Licking county men, volunteers and selected men, and more than 100 more are to be given the Licking county men at the next roll call in October. Licking county soldiers and sailors are writing back to The Advocate from every section of the

country expressing their very sincere appreciation for this beautiful token of confidence and esteem from the folks back home and they say that no community is doing for the boys what Licking county is doing. In other words the service medals are making a great hit with the boys. Contributions came to The Advocate Saturday from L. N. Plaine, Harry Scott, A. Nelson, Dodd, Lottie Holman, Nevada Holman, Hattie Holman, Mr. and Mrs. George L. Starrett, Mrs. Robert Markham, Harold Peck.

The Advocate was glad to receive contributions to this fund in any sum not less than 10 cents nor more than \$5. Names of contributors are published.

### \$100,000 WILLED TO DENISON; BAPTIST CHURCH GETS \$20,000

By the will of Eugene J. Barney, Dayton capitalist, who died a few weeks ago, Denison University will receive \$100,000 for the new endowment fund and the Baptist church receives \$20,000 for enlargement of church and construction of a new pipe organ "in recognition of its work among the students of Denison university." The will was admitted to probate at Dayton Saturday. It disposes of an estate of several million dollars, the exact estimate not being given. Mr. Barney's widow and two daughters with two assistants are made executors of the will. The widow and daughters are amply provided for by bequests in the will and gifts made while Mr. Barney still was living.

The will lists stock to 15 cents, valued at \$400,000, and directs that this shall create a trust fund from which the following payments shall be made:

"The will provides: Denison University at Granville, Ohio, \$100,000 as new endowment fund; First Baptist church, Dayton, \$25,000; American Baptist Foreign Mission Society, \$25,000; American Baptist Home Mission Society, \$25,000; Ohio Baptist Convention as endowment fund, \$25,000; Y. M. C. A., Dayton, for building fund, \$25,000; Baptist Union of Dayton, to create endowment fund for establishing missions in the city and assisting feeble churches of the Baptist faith in Dayton, \$25,000; Miami Valley Hospital, for the support of corps of nurses, \$25,000; Dayton Associated Charities, \$25,000; Home for Aged Baptist Ministers at Fenton, Mich., \$25,000; Southern Baptist Theological Seminary, Louisville, Ky., \$25,000; Baptist church of Granville for installation of new pipe organ and enlargement of church, in recognition of its work among students, \$20,000; to Mrs. Louise P. Barney, widow of Edward E. Barney, a brother, and his surviving daughter, one-half to each \$20,000.

Mr. Barney since he has made many generous gifts to Denison University, the last one made while he was living being \$100,000 to the endowment fund being raised by the university. His gift made possible the construction of Barney Science Hall. When this building was destroyed several years ago, Mr. Barney added enough to the insurance fund to rebuild the structure practically fire proof. Mr. Barney has been a member of the board of trustees of Denison for many years.

The Baptist church at Granville has had under consideration tentative plans for improvements on the church but it was stated this morning that no statement could be made regarding the bequest of Mr. Barney. It was known, however, that Mr. Barney was deeply interested in the proposed improvement. Rev. Millard Brelford had no information officially regarding the bequest.

## CHARACTER OF BERNSTORFF

In view of Secretary Lansing's revelation of Ambassador Bernstorff's activity in efforts to influence the United States congress by the use of money from the Berlin government, it may interest Advocate readers to see what Prof. W. H. Johnson, of Denison University, wrote of Bernstorff a year and a half ago. We copy the following paragraphs from his pamphlet on "The War and World Opinion."

"Bernstorff, the German ambassador, has been a frequent offender against any admissible theory of diplomatic decency and propriety. The war had scarcely begun when he entered upon a vigorous campaign through the newspaper press to sway the current of public opinion to the side of Germany. It need hardly be said that this was wholly beyond the bounds of his legitimate activity. Years before, we had asked for the recall of a British ambassador not for an appeal to public opinion, but for an expression of his opinion in a private letter which happened to get into print, with regard to a pending election. But Sackville-West's offense was the merest trifle in comparison with Bernstorff's newspaper campaign, and the governments of the whole world would have taken it as a mere matter of course if these initial offenses had been followed by prompt and explicit notice to Germany that the offender was no longer acceptable. On any matter that affects the relations of the two countries in any way, directly or indirectly, an ambassador has but one legitimate channel through which to work, and that is composed of the officer or officers in whose control the foreign relations of the country have been legally placed. When a diplomatic officer goes outside this channel, there is at once room to suspect that his motive is to bring outside pressure to bear upon the officials with whom he has to deal. The Bernstorff has been trying to do just this, from start to finish, is a mere statement of fact evident to anyone who has followed the course of events. On the first of May, 1915, the German embassy, with no consultation whatever with the president or secretary of state, had advertisements inserted in newspapers all over the country advising American citizens not to take passage in ships flying the British flag. Here again was an offense against diplomatic decency which would have been very mildly punished by asking for his recall. These advertisements attracted little attention, because the world was not yet aware that the German war lords had fallen far enough below the present standards of civilization to sink a great passenger ship without warning and with no provision for the safety of its passengers. In the first note to Germany after the sinking of the Lusitania, attention was called to the "surprising irregularity of such advertisements issued from the embassy without notice to our government, but if this surprising irregularity (outrageous indecency, in plain language) had been appropriately followed by a cable request for Bernstorff's recall, by noon of the morning when the advertisements appeared, there would have been more than a gambling chance that the torpedoing of the Lusitania would never have occurred. It is doubtful whether any country ever really consults the far-reaching interests of peace and international comity by tolerating the continued presence of international offenders against diplomatic and consular propriety. Such offenses usually mean that the country in which they are committed is being employed as a base of operations for some ulterior end, likely to produce friction with other countries; and such is undoubtedly the case with the offenses committed by the German and

## IS IT A "WALL STREET" WAR?

(Collier's Weekly, Sept. 22.)  
Of the various forms of German propaganda, propaganda sedulously assisted by all our enemies within the United States, none is more frequent, none more stupid, than the plea that we are "fighting for Wall Street." By this argument, Wall Street had invested heavily in the loans of the allies, but saw that the allies could not win, and, for the sake of safeguarding its investments, Wall Street dragged the administration into the war. Now, one of the ridiculous implications of this argument is that the president of our republic, one Woodrow Wilson, is either so stupid or so corrupt that he could be fooled by this mysterious villain of all anarchist and pro-German melodramas, "Wall Street." As a matter of fact, however, no one knows better than the various conflicting forces collectively called "Wall Street" that Mr. Wilson is neither a child nor a knave. He is a very clear-seeing, very opinionated, unmistakably honest person of academic training—a polished but forceful speaker whose mistakes have never yet been silly mistakes or criminal mistakes. Those who can conceive of Woodrow Wilson as either a dupe or a servant of "Wall Street" are themselves disingenuous. Incidentally, the United States at war progresses more and more unmistakably in the direction, if not of state socialism, then of that purer order of socialism under which all the fundamental industries are civilized and socialized. Though the United States has not yet been in the war six months, and is only at the small beginning of its actual fighting, proposals have already been made for such taxes on corporate or individual war profits as would have been inconceivable in America, even to the mind of Eugene V. Debs or Sockless Jerry Simpson, in the last decade of the nineteenth century. If this war continues a year longer, we shall have marched still farther along the radical highway—farther indeed than we should have gone, but for the war, in a third or a half of a century.

That honest "radicals" can really think "capital" stupid enough to have launched the United States in this war for its capitalism's protection of profit making, is one of the most comical of conceits. That our simple-minded friends who play the German game by arguing that this is an "undemocratic" war have thought very deeply on the subject is hard to believe—for their notion insults the intelligence of those who have observed that the war is jolting loose, not royal crowns only, but the crowns of commerce and all the industries. Capital was once, "sacred" and "holy"—but in all countries, even France, so friendly to the man who saves and invests, and England, always so tender of tradition, coarse hands have been laid upon capital's "rights" by those who are battling for democracy against autocracy. Obviously, if the wicked, wicked capitalists were in this war for their moneybags' sake, they would be fighting under the Kaiser's flag!

Instead of which, it is the "I. W. W." the more anemic self-styled "intellectuals," and a certain type of socialist (not the Charles Edward Russell type) that is fighting for the Kaiser on American soil.

## WHO GOT GERMAN BRIBES?

(Pittsburgh Gazette Times.)  
What organization was it through which Count von Bernstorff, by the disbursement of \$50,000, proposed "ag on former officers," influence Congress and "perhaps prevent war"? Perhaps Secretary Lansing knows and will reveal it in a statement supplemental to his announcement of the German Ambassador's message to his government on January 22 last. If the State Department is not fully informed, it must bestir itself and find out. The American people want to know all about the hidden hands of traitors. They will be slow to believe any members of Congress have been guilty of corrupt bargaining with a foreign enemy; they cannot

body wants ice, for we know it will be demanded a few months later; so we prepare in mid-winter, for our comforts during the heated period of summer.

The plan of universal military training as outlined in the Chamberlain Bill would make available at all times, millions of young men who have had sufficient military training to enable them to become excellent soldiers with a few weeks of additional training. This would safeguard the nation and prepare it against any emergency. If one should never arise, the training and discipline would be the very best experience that any young man could have. It would make him stronger physically, more alert mentally, quicker to see and to act. Also it would increase his earning capacity and give him a better chance to win success in his life work. Our boys are in a life work. Our boys are in a life work. Our boys are in a life work.

## GERMAN MONEY.

(Columbus Sunday Dispatch.)  
Count von Bernstorff has accounted for a good deal of pro-German sentiment in this country. It was bought and paid for with German money. The wise ones believed all along that there was something else than sentiment involved, and that impression has been confirmed from the highest German authority.

One of the leading members of congress says he is satisfied ten or twelve members of that body were influenced by German money. He does not name them, but their names will become known. He says they acted "mysteriously" all along. Whether he is correct or not, the fact is that a lot of people in this country became great advocates for "peace" just about the time the count was operating most energetically with German money.

If we people generally had known as much as President Wilson knew, we would have gone to war with Germany long before we did. Recent developments have shown to what extent the president was patient, to what extent he tried to keep the nation out of war even after he knew the many things which Germany was illegally doing in this country. He couldn't take the nation into his confidence; he couldn't tell all he knew. So he had to bear the criticisms of those in German pay and of those who were ignorant, while going about his war.

But it is all plain now. Germany was sinning against us previously all along. She was trying to stir up trouble for us all over the world. She was trying to corrupt our legislative bodies. She was bribing our citizens, and violating our laws of neutrality, and plotting against the government all the time. The wonder is that the president didn't tell all he knew right in the beginning, and thus have gotten us into the war a year or two sooner. A less patient, less hopeful man, would have done so.

**EQUIPMENT FOR 2,300,000 MEN.**  
(Ohio State Journal.)  
Secretary Baker has asked an appropriation of money sufficient to purchase equipment for 2,300,000 men. It is hoped he will get it. We are going to need that money. We are going to need that money. We are going to need that money.

**UNIVERSAL MILITARY TRAINING**  
(By Wm. Wrigley, Jr.)  
How fortunate it would have been had we adopted universal military training five or ten years ago. It would have meant much in the present crisis—it probably would have kept us out of the war. But it's no use to cry over spilt milk. The question is, what shall we do now? Every thoughtful man must feel that a nation unable to protect itself promptly is blind to the tragic possibilities of its heedlessness. War comes unexpectedly, and as in our own case, it is sometimes forced upon an "innocent bystander." For three years we submitted to insult and injury, until forbearance ceased to be a virtue and there was nothing left for us but to assert our rights and to defend them. No country in the world hates war more than we do. Only extreme provocation would induce us to take up arms. Experience shows us that a peace-loving nation is not safe because of that fact. Belgium and some of the Balkan states are evidence of it.

As the world is constituted, and has been through thousands of years of strife, there is only one safe plan, and that is to follow the advice of Washington—in time of peace, prepare for war. If we had done this a few years ago, we would have saved billions of dollars and ten of thousands of lives. It is common knowledge in military circles that trained men, by knowing how to take care of themselves in camp and in the field, reduce the mortality and casualties at least two-thirds, and what is even more vital, MEN OF SPECIAL TRAINING ONLY CAN BE USED IN MODERN WARFARE.

playing rounders, and he lost no time in marking out a diamond with a crooked stick. Later he blocked out his new scheme on paper. The diamond he drew was thirty yards square. And notwithstanding all the other modifications that have taken place the diamond of today still measures nine feet along each side. The decision that Abner Doubleday was the father of baseball and that Cooperstown was its birthplace followed a thorough investigation by a commission, which numbered among its members two United States Senators and several high officials of the National and the American Leagues. At the time of the investigation, Abner Graves, a mining engineer at Denver, Colorado, proved to be the only survivor among those young Cooperstown boys who played so long ago in a village field, conveniently near Greene's Select School. He reported that he saw Doubleday mark off the lines and place the bases and players virtually as they are in baseball today. ## SOCIAL EVENTS

(Society Editor, Auto Phone 23126.)

The wedding of Miss Ruth McCoy and Nelson McCoy, took place at the Grace M. E. church in Zanesville, Saturday afternoon at 3 o'clock. The attendants were Miss Marguerite Evans and Mr. Lloyd McCoy. The only other witnesses were Mr. and Mrs. Glen O. Bolin (Rhea Ingler) brother and sister-in-law of the bride.

The bride's suit was of blue with gray hat and shoes and she wore a corsage bouquet of orchids and lilies of the valley. Miss Evans' suit was of amethyst velvet with black hat and black shoes.

Immediately following the ceremony Mr. and Mrs. McCoy left for a trip east and will be at home after November 1, at 328 Luck Avenue, Zanesville. The bride is a niece of Mrs. Margaret Hall and Mrs. Hannah Allen of this city.

The first West End Bible study meeting was held at the home of Mrs. Rogers in 135 Maholm street, Friday afternoon. The next meeting will be held at the home of Mrs. George Miller in Woodlawn avenue Friday afternoon, Sept. 28.

**Winn-Platt.**  
Announcement is made of the marriage of Miss Pauline Platt and Mr. Byron Winn, which was solemnized on Saturday evening by Dr. L. C. Sparks at his home in North Fifth street.

The bride is the daughter of Mr. and Mrs. William Platt of Utica, while Mr. Winn is the only son of Mr. and Mrs. E. P. Winn of Maple avenue. The impressive ring service was used and following a short trip, Mr. and Mrs. Winn will be at home at 587 Maple avenue.

**Hoffer-McKee.**  
Rev. A. B. Cox, pastor of the East Main Street U. B. church officiated at the marriage of Miss Lida McKee and Mr. Frank Hoffer. The wedding took place at the parsonage of the church, Monday morning at 10 o'clock.

**OLE' ABE MARTIN SINGS OF KAISERS AND KINGS**

Goodby Maw! Goodby Paw! Goodby Mule with your old Hee Haw. May not know what the war's about. But I bet by now, I'll soon find out! I'll bring you a king for a souvenir. I'll bring you a Turk and a Kaiser, too. And that's about all one feller can do.

So sang young Americans at Ft. Ben Harrison last week. Visitors to the camp brought a copy of the words home. The verse was composed by "Abe Martin" of the Indianapolis News.

## GRANVILLE

(Special to Advocate.)  
Granville, Sept. 24.—Prof. and Mrs. Walter Livingston are enthusiastic over their visit to Camp Sherman, Chillicothe, yesterday, where athletic business called the great Denison athletic and military coach, in company with Mr. and Mrs. J. W. Horner of Newark they motored over. Arrived at camp, the way was made delightfully easy by General Glenn with whom Prof. Livingston held a conference. They saw all phases of the camp life which they report as wonderful. Already 10,000 men are in camp. They saw many boys they know among them Capt. Roubidoux and Lieut. Woodruff, formerly of Denison university.

Mr. and Mrs. John Owen have sold their farm on the Lancaster road, two and one-half miles from Granville, to Henry France of Washington, Pa., who will take possession Nov. 1. Mr. and Mrs. Owen immediately after the sale of farm and household goods held on October 11, will move into the house owned by William Owen, College and Prospect streets, Granville, which is being thoroughly overhauled and redecorated.

Miss Laura Leavitt of Columbus was the week-end guest of Mr. and Mrs. M. B. Younglove of the Lancaster road.

Frank Colby of Dayton, engaged in government work, was the guest of Sigma Chi over Sunday, and renewed old acquaintance in the village.

Mr. and Mrs. A. D. Eldridge of Franklin and Frank Eldridge of Newark were Sunday visitors in Granville.

Mrs. L. R. Smith and her niece, Miss Emma Gaston Smith of Columbus, motored to Granville Sunday, as the guests of Mr. and Mrs. Burton Case.

Mr. and Mrs. Carl Babb of Xenia, with their little daughter, were week end guests of their parents, Judge and Mrs. J. M. Swartz. Harry Halterman, superintendent of San Toy mines, visited his mother, Mrs. Margaret Halterman, and his aunt, Miss Mary Jones at "Mononoy Place," Broadway.

Mrs. Lida Gell of Columbus of Tuscaloosa, Ala., en route New York, spent Sunday at the home of her brother and sister, Rev. and Mrs. John Gell, who have been to Africa and returned since last she saw them. Mrs. Eddins, who possessed a soprano voice of unusual range and flexibility, was soloist at the morning service in the Baptist church Sunday and at the evening service in the Presbyterian church to the delight and edification of both congregations.

Rehearsals of the Festival Chorus are held each Monday evening in Recital Hall from 6:30 to 7:30, under direction of Prof. K. H. Eschman. The privilege of joining this chorus is one which should be appreciated by the young people of the college and of the village.

Miss Emily Copwell of the State Library, Columbus, was in Granville over Sunday at the home of her parents, Dr. and Mrs. R. S. Colwell. Her sister, Miss Margaret, left at noon Sunday for New London, Conn., where she is to enter the Connecticut College for Women.

The board of trustees of the Ohio Baptist Education society will meet at 7:30 this evening in the primary room of the church.

Robert Duncan, prosecuting attorney of Franklin county, and Mrs. Duncan of Columbus, who are summer guests of their parents, Mr. and Mrs. J. C. Campbell on the Lancaster road, were guests at Sunday dinner of Beta Theta Pi. In the afternoon Arthur W. Jones, Frank Spencer, Herschel Boyer, Ed Speer and John McConaughy went to "Bryn Mawr" on invitation of Mr. and Mrs. Duncan and remained as supper guests of Mr. and Mrs. Campbell.

## AFTER MANY REMEDIES-- INTERNAL BATHS

Mr. Joseph Rosenbaum writes Dr. Chas. A. Tyrrell of New York as follows:

"For many years I was a sufferer from Rheumatism, Neuralgia and Constipation, and after trying many remedies I purchased your 'J. B. L. Cascade' and find it most beneficial. All the above ailments have disappeared and I now enjoy excellent health."

You can help Nature. Nature's most effective way, by internal bathing with the 'J. B. L. Cascade' and in an easy, non-habit forming manner keep the internal organs clean and healthy. Nature demands it to be for perfect health. Over a million keen, bright, healthy Americans testify to its results.

It is the invention of Dr. Chas. A. Tyrrell, M. D., of New York, a specialist on internal diseases, is now being sold and explained by Hudson Ave. Pharmacy, R. L. Williams, Prop., 322 Mar. Co. Today is Only 50¢ Efficient, which is most interesting and will tell you facts about yourself that you have never before realized.

**Our Boys and Girls**  
Stammering is due to a particularly nervous temperament, and only very sympathetic treatment can effect a cure. Stammering in a child should receive immediate attention, and the first thing to be done is to improve the little one's health by means of plenty of sleep, fresh air, and good food. Every day he should take deep breathing exercises in the open air. These deep, steady inspirations strengthen the muscles of the throat and counteract a spasmodic habit of breathing.

Notice should be taken of the sounds which the little stammerer has the most trouble with, and sentences containing these sounds should be composed for him to repeat each day, very slowly and clearly. He should be asked to read each day. This exercise should be omitted whenever he seems over-excited or run-down in health, and it goes without saying that he should never be scolded or laughed at.

The great secret of keeping the face young is to keep off the dead cuticle, says Dr. J. Mortimer Mitchell. "It is well known that the surface skin is constantly dying, falling off in imperceptible particles, except in some diseased conditions, when the same appears like dandruff. But the particles do not all drop off immediately; they die, being held for a while by the live skin. To have the dermatological surgeon peel off the entire outer skin at one time is a painful and expensive operation. The same result is obtained by applying ordinary mercurized wax, as you would cold cream, allowing this to remain on over night, then taking it off with warm water. One ounce usually suffices. The process is both painless and inexpensive. The wax, which is procurable at your drug store, hastens the natural shedding process. It gradually absorbs the dead and half-dead skin, revealing the new, healthy, youthful-looking skin underneath."—Adv.

## Oriental Rugs

MR. S. MOORADIAN is here again with his fine collection of Oriental Rugs now on display at Hotel Sherwood. Mr. Mooradian needs no introduction as he is well-known to the people of Newark. He will appreciate it very much to have his friends and patrons call and see his Rugs, whether they wish to purchase or not. Sale continues until Friday noon. If your fine Oriental Rugs need attention—to be cleaned or repaired—will do a good job if you will trust me to take the work to Dayton. Save your old Rugs and spend a little of your money to repair, because these great pieces of art will soon be gone.

Will be glad to call and see your Rugs, if you will phone for me.

## Milady's Boudoir

### Repairing Summer Ravages.

When you come home from the summer outing, look out for your complexion, and as quickly as possible repair the ravages of the sun and wind. Cold water should never be used on a sunburned complexion. Wash the face in warm water instead. Then sponge with a simple mixture of rain water, lavender water and benzoin. The proportions are three of rain water, one of simple tincture of benzoin, and two of lavender water. Cucumber milk is cooling for the sunburned face. Take an ounce of fresh cucumber juice and three ounces of fresh milk. Scald, skim, and use massage well into the face after washing. Then wipe the face with a soft towel.

The woman who freckles easily should protect her skin by rubbing in a little non-greasy cream once or twice a day and giving it a light dusting of powder after the cream has been well rubbed into the pores. Buttermilk is invaluable for washing a freckled face, and its regular use will entirely remove freckles and prevent them from reappearing. It is always a mistake to put off the removal of freckles until the end of summer, as the longer they are allowed to remain the more trouble they give when the task of removing them is undertaken.

It is best to start removing them as soon as they are noticed and then to take precaution to prevent them from forming again. The following freckles are excellent for removing light freckles: Two ounces lemon juice, two ounces glycerine, one ounce rose water. Apply to the face several times daily and allow it to dry on the skin.

## UTICA HIGH TO TEST ABILITY OF LOCALS IN FRIDAY GAME

The battle of the Marno will have nothing on the battle royal which will be fought Friday afternoon at White field at 3:30, when the Newark high line of football huskies goes into action against the Utica high team. Utica is a comer in athletics and this year has succeeded in placing in the field a light yet remarkably fast eleven, about equalling in weight the Newark lads. Coach Millner has been drilling his men in all kinds of plays and has provided for any emergency in case Utica should spring something unexpected. This opening game should give the Newark players a good idea of the heavy schedule which follows. The boys are brim full of pep and are highly confident of their ability to defeat the ball as will keep dust upon Utica's head. Newark's backfield will be composed of veterans from last year's team, while the line will be able to hold its own against any other aggression. A fast and interesting game is promised.

## BUCKEYE LAKE TARS ELECT OFFICERS AT SUNDAY MEETING

An election of officers for the Buckeye Lake Yacht Club was held Sunday at the club house, the new officials to serve for the ensuing year. There was an excellent attendance and a fine dinner was served. The noon hour following is the result:

Commodore—Wm. Frisbie, Columbus. Vice commodore—J. T. Matthews, Columbus.

Rear commodore—W. C. Wells, Newark.

Secretary and treasurer—Chas. Fast, Columbus.

Governors—L. R. Schneider and Judge Maurice Donahue, Columbus and H. D. Doane of this city.

In the afternoon the cat boat race postponed from Labor Day took place and "The Windward" skippered by Charles Allen with George Wiley as first mate, both of this city, beat the "Windward" by four seconds. The skipper, Wiley, with Ed. Browne of this as skipper, was third. The men were the recipients of many congratulations for sailing such a splendid race.

## COMPLETE DETAILS FOR PAN HANDLES' GAME HERE SUNDAY

The management of the Pitzsimmons football team yesterday afternoon completed arrangements which will bring to Newark next Sunday the famous Pan Handle football team of Columbus, contenders for the state title.

One of the conditions under which this game was secured was that the admission price be 50 cents to everyone. The management of the Pan Handles insisted on this, as after the season is well under way the team draws 50, 75 and \$1 wherever it plays.

The Pitz team will have the very best in football talent in the city. In the lineup will be found such stars as McCarty, Bowser, Jackson, Keyes, Davis, Jenkins, Williams, Nehls and others equally as good.

This game will be played at the Wehrle park, starting at 2:30 p. m.

# SYMPTOMS OF HER DISEASE MORE EVIDENCE OF GERMAN INTRIGUE REVEALED BY THE VON IGEL PAPERS

Backache, Stitches, Nervousness, Dizziness, Faintness, all Disappeared After the Woman's Medicine was Taken.

Kingfisher, Okla.—"For two years I suffered with a severe female trouble, was nervous, and had backache and a pain in my side most of the time. I had dizzy spells and was often so faint I could not walk across the floor. The doctor said I would have to have an operation. A friend asked me to try Lydia E. Pinkham's Vegetable Compound. After taking ten bottles I am now well and strong, have no more pain, backache or dizzy spells. Everyone tells me how well I look and I tell them Lydia E. Pinkham's Vegetable Compound did it."—Miss NINA SOUTHWICK, R. F. D. No. 4, Box 33, Kingfisher, Okla.

Every woman who suffers from female troubles, nervousness, backache or the blues should try Lydia E. Pinkham's Vegetable Compound as Mrs. Southwick did, or if they need free advice in regard to any annoying symptom write to Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass.

Have you ever enjoyed the sensation of really clean teeth?

You will have that pleasure constantly if you use Senreco, a dentist's formula. This discovery of a dental specialist not only KILLS CAVES but is particularly destructive to all disease germs in the mouth, especially the germ of Pyorrhea. This germ exists in practically every human mouth; it causes soft, sore, tender gums which bleed readily, and can in time result not only in loss of the teeth themselves, but its germs may spread through the entire system, producing serious bodily ailments.

TO AVOID TOOTH TROUBLES—See your dentist twice yearly. Use Senreco twice daily.

LESTER N. BRADLEY  
Successor to Butler & Bradley  
Funeral Director  
212 NORTH PONTIAC ST.  
CHICAGO, ILL. — Tel. 1-1000

WASHINGTON, Sept. 24.—Further disclosures of far-reaching German propaganda, intrigues and plots in this country prior to the diplomatic break with Germany have been announced by the committee on public information.

In a bulletin styled "Official Exposure," the committee quotes numerous letters and extracts from letters seized by the department of justice in April, 1916, in a raid upon the New York office of Wolke von Igel. Von Igel, in carrying on his manifold pro-German and anti-American activities, the documents show, was in constant touch with the German embassy and with Count von Bernstorff, then the German ambassador to the United States.

"In the form of letters, telegrams, notations, checks, receipts, ledgers, cash books, cipher codes, lists of spies and other memoranda, and other records," the committee says, "were found indications—in some instances of the vaguest nature, in others of the most damning conclusiveness—that the German imperial government, through its representatives in a then friendly nation, was concerned with—

"Violation of the laws of the United States.  
"Destruction of lives and property in merchant vessels on the high seas.  
"Irish revolutionary plots against Great Britain.  
"Fomenting ill feeling against the United States in Mexico.  
"Subordination of American writers and lecturers.  
"Financing of propaganda.  
"Maintenance of a spy system under the guise of a commercial investigation bureau.  
"Subsidizing of a bureau for the purpose of stirring up labor troubles in munition plants.  
"The bomb industry and other related activities."

The committee, of which Secretaries Lansing, Baker and Daniels are members, and George Creed, chairman, has this to say concerning Holland:  
"It has long been an open secret that Holland is merely a way station for shipments of contraband into Germany. Here is official confirmation from the von Igel records which would seem to indicate a suspicious and coming relation between the 'Holland' commission and the German diplomatic officials accredited to this country, or possibly a belief by the Germans that they could not successfully get the munitions to their own country. The message in code with interlinear translation is entered as 'A-2495' and headed 'German Embassy, Washington, D. C., April 6, 1916.' It runs as follows:  
"Telegram from Berlin by secret, roundabout way for Karl Heyse: Consent sale Holland three hundred thousand chests (cartridges), and two hundred tons powder. Please get in touch with Holland commission. Sender, war minister, foreign office, in representation.  
(Signed) 'Hatzfeldt.'  
"Prince Hatzfeldt was an official of the German embassy.

The Hamburg-American line's bureau of investigation, the committee states, an "innocent" pretending agency" was at the outset the secret service of the Hamburg-American Steamship company. Under Paul Koenig, its manager, it became an adjunct of the German diplomatic secret service. A letter dated July 20, 1915, from "O. R." one of its operatives to "7,000" (characterized by the committee as Captain von Papen, former German military attaché) tells of the payment of \$150 to an unnamed person, under peculiar precautions, after the recipient had made this statement:  
"I intend to cause damage to vessels of the allies leaving ports of the United States by placing bombs, which I am making myself, on board. These bombs resemble ordinary lumps of coal and I am planning to have them concealed in the coal to be laden on steamers of the allies."

Money apparently went from German sources in the United States through embassy channels to Sir Roger Casement, the Irishman executed in London.  
"Several lines of communication between the German diplomatic service and the Irish revolutionary movement are indicated in the captured documents," the statement continues. "John Devoy, of New York, now editor of the Gaelic American, a violently anti-British paper, was one of the active agents of this connection. Significant entries appear here and there; references to messages from the German embassy at Washington and the German consulate at New York; mention of a secret code to be employed in communicating with him and of a 'cipher device'; also, a notation, the details of which remain undiscovered, concerning 'communication re-manufacture hand grenades.'"

The following reference to Supreme Court Justice Daniel F. Chalan, of New York, is contained, the committee states, in a letter found in the von Igel papers in cipher with interlinear translation, dated New York, April 17, 1916, numbered 335-16 and inscribed at the top "very secret."  
"Judge Chalan requests the transmission of the following remarks: 'The revolution in Ireland can only be successful if supported

from Germany, otherwise England will be able to suppress it, even though it be only after hard struggles. Therefore help is necessary. This could consist primarily of aerial attacks in England, and a diversion of the fleet simultaneously with Irish revolution. Then if possible, a landing of troops, arms, and ammunition in Ireland, and possibly some officers from Zeppelins. This would enable the Irish ports be closed against England and the establishment of stations for submarines on the Irish coast and the cutting off of the supply of food for England. The services of the revolution may, therefore, decide the war.'

"He asks that a telegram to this effect be sent to Berlin."

This letter was signed: "5132 8167 0230," and was addressed to Count Bernstorff, "imperial ambassador, Washington, D. C."

A code message sent to Berlin was given as follows:  
"National Germania Insurance contract certainly promised. Executor is evidently satisfied with proposition. Necessary steps have been taken. (Signed) 'Henry Neuman.' Of this message the committee has this to say:  
"Not so innocent and harmless as it looks, for what the message really means is this:  
"Irish agree to proposition. The necessary steps have been taken."  
"Information carefully and extensively set forth in the secret documents of the German officialdom," the committee continues, "was sometimes wide of the facts. For example, a lengthy memorandum of March 1, 1916, transmitted by the secret agent, Captain Boehm dealing with the Mexican crisis, appears to have been largely the work of some fervid and projective imagination."

"It predicts that the president will attribute Mexico's anti-American activities to German money and incitement; that he will call upon congress to support him in radical measures (the prophet even attempts to paraphrase the language to be employed in the message); that congress will endorse the president's stand following which upward of 150 German spies and agents provocateurs were to be arrested and the ambassadors of the Central powers to receive their passports."

After citing an extract from Captain Boehm's letter, the committee states that he was "too loose of tongue" for the good of his service and, citing a report of the German military information bureau of March 21, 1916, quotes the report as follows:  
"Too great confidence in the silence of his fellowmen, especially the members of the American Truth society \* \* \* was probably the cause of his becoming quickly known here."

The committee's statement continues:  
"So the notorious American Truth society, which so strenuously denied its pro-German association, figures as indirectly linked up with Germany's secret representative. This society is still extant and Jeremiah O'Leary, its moving spirit, is now the editor of Bull recently shut out of the mails for publishing seditious matter."

Many investors, the committee states the seized papers show, are represented as having planned involving the use of devices of destruction. One entry is cited as follows:  
"June 15, 1915. Sender, G. S. Viereck. Contents, inquiry as to bombs; supply offer. Told to send further details."

"Possibly the further details," the statement continues, "are indicated in another entry of four months later:  
"Sender Viereck. Contents, offer of picric acid."  
"Picric acid is a constituent of many high explosives.  
An entry entitled, "pure war expenses," from the von Igel papers is made public by the committee as follows:  
"Edwin Emerson \$1,000.  
"Fair Play (Mr. Braun) \$2,000.  
"Fair Play (Mr. Braun) \$1,500.  
"Marcus Braun \$1,000.  
"J. Archibald \$5,000."

The statement continues:  
"Concerning the identity of the last entry there might be room for doubt but for a signed receipt from J. F. J. Archibald, acknowledging the sum of \$5,000 from the German embassy for propaganda work."

The committee concludes its exposure as follows:  
"While chiefly concerned with military affairs in Europe the representatives of a supposedly friendly nation were keeping an interested watch on our own activities in that line. A secret code message of April 11, 1916, signed '13232 . 46729 46919 addressed Von Igel to this effect:  
"Herewith respectfully send an expert regarding the troops stationed in California and the armament of the coast fortifications."

Much Food in Small Bulk.  
The British soldier when fresh bread is not available is supplied with what he calls "dog biscuit." It looks like just that, being a thick cracker four inches square and weighing three ounces. Of whole wheat flour pressed solid, it might be described as a condensed loaf of bread.

The French have a "war bread" somewhat similar, which when put into hot water or soup swells up like a sponge.

The famous German "pea sausage" is composed of pea meal, bacon and fat. It was the invention of a Berlin cook, who discovered a process whereby pea meal could be made proof against deterioration. One sausage eight inches long yields twelve plates of nutritious soup.

## BIG CROP OF CORN IN LICKING COUNTY

How will you get it cut in time to seed to wheat? Labor is scarce and high-priced. Let us help you to solve this problem. Buy a McCormick Corn Binder. This will enable you to finish seeding from ten days to two weeks earlier, which will make you money. Probably enough to pay for the McCormick Binder, as the binder will not only save the cost of high-priced labor, but will also insure you a better crop of wheat by enabling you to get your wheat sown a good season.

We have the McCormick Binders in stock and can give immediate delivery. Come and see us CHAS. U. STEVENS, 37 SOUTH THIRD STREET. 9-18-6

**STATE GIVES WIDOW OF EVERETT \$3744; MRS. BUKER \$2496**

Two awards in the workmen's compensation act were made to Newark women today. One for \$3,744 was made to Mrs. C. H. Everett, whose husband was killed in a fall from a derrick east of the city, and another to Mrs. Fannie L. Buker, for \$2,496. The last award was made in the death of the son of Mrs. Buker, who caught hold of a high tension wire and was electrocuted.

**OHIO GUARD SURGEONS OBSERVERS IN FRANCE**

Columbus, Sept. 24.—According to a report which reached Columbus today, Lieutenant Colonel Joseph A. Hall, of Cincinnati, chief surgeon of the Ohio national guard and Major John S. Sheller, quartermaster of Columbus have been ordered to Europe as inspectors. It is not known when they will go. It is presumed they will return and report observations to the Ohio troops.

**URGE SUFFRAGE COMMITTEE.**  
 Washington, Sept. 24.—Shall a special house committee on woman suffrage be created? This question was before the house today for determination in the form of a report presented by the rules committee recommending the creation of such a committee with prospect of favorable action. The senate has a similar committee. Support of the committee's recommendation is urged in a letter received today by house members from Mrs. Maud Wood Park, congressional chairman of the National American Woman Suffrage Association.

**CONFERENCE ON TAX BILL.**  
 Washington, Sept. 24.—Conferees on the war-tax bill resumed work today with the question of an agreement on excess profits, rates, and exemptions, apparently depending largely upon the action of senate members on the house compromise proposal, which is said to provide for important concessions by both sides.

**DRAFTED MAN CUTS HIS THROAT AT CANTONMENT.**  
 Camp Sherman, Chillicothe, O., Sept. 24.—Edward A. Nord arrived yesterday from Mineral City, O. Tuscarawas county, cut his throat at 10 o'clock last night at camp here. He died at the base hospital today. Nord was a member of the first depot regiment.

**THE COURTS**  
 Commissioners' Office.  
 The county commissioners were engaged in inspecting several bridges on the Wilkins Run road and this afternoon inspected the Eleventh street bridge. The Ohio Electric is desirous of running its big interurban cars over the Eleventh street route and it is suggested that the West Main street bridge be moved to Eleventh. It is hardly probable that it will be done before some time.

**Pushing New Road.**  
 Fritz Vogelmeier and force of men are pushing to Rocky Fork road improvement and making good headway. The road will be built for a distance of one mile and a quarter and another letting will be held in the near future. This road is under county and state supervision.

 Thelma Alspach was removed from the City Hospital to her home, 257 Indiana street on Sunday in a Besser ambulance.

**Mrs. Edwin Postle was removed from the private hospital in Granville street to her home in Columbus in the Besser ambulance Saturday afternoon.**

**E. T. Rugg, who has been quite ill continues to improve at his home in Hudson avenue.**

**ASK OHIO TO GIVE \$125,000 TO FUND FOR SOLDIERS' BOOKS**

Columbus, O., Sept. 24.—The nation-wide million-dollar "soldier book fund" campaign was on in earnest today.

Directors of the campaign in this state, backed by the Ohio branch, Council of National Defense, have pledged Ohio to raise \$125,000 for the fund at the very lowest estimate.

Local libraries, women's clubs, Boy Scouts, and other organizations in various parts of the state have offered their services to aid in collection of the fund.

To this machinery was added another immense unit today in the personnel of the school system of the state. Fred C. Croxton, vice chairman of the State Defense Council, with approval of Governor James M. Cox, sent a letter today to district county and city school superintendents throughout Ohio, making this appeal:

"We are asking you to aid in raising a sum equal to 5 cents for each person of population in your community. This is the teachers' special opportunity to do his 'bit' in this world-war. We appeal to you personally to give every aid in your power to this worthy cause."

C. B. Galbreath, state librarian, who is in direct touch with the American Library Association and Library War Council of the war department, who are leaders in the book fund campaign, announced today that leading publishing houses have offered to sell books for soldier camps at one-half retail price.

**25 Years Ago**

(From Advocate Sept. 24, 1892)  
 The following wheelmen of the leading bicycle club of Zanesville spent a short time in this city yesterday: Messrs. Gibson, Jones, Ashley, Spidel, Perry, Sive, Sisile, Winter, and Alex and Stanton.

**INDIANA GUARD DISCHARGES NEWARK MAN UNDER DRAFT**

The local draft board has received no instructions as to when the remainder of the drafted men from this city and county will be sent to Camp Sherman, although it is generally understood that they will be ordered to camp either Oct. 3 or 5. The full city and county quota will probably be in camp within the next ten or twelve days. A public demonstration will be given the soldier boys on the day of their departure but the plans have not been fully arranged as yet.

A telegram was received by Secretary Walter Symons of the local draft board today stating that the commandment of the Fourth Regiment Indiana National Guard, had been directed to discharge Philip Cassilio, and direct him to report to the board in this city at once under penalty of being charged with desertion. Cassilio was drafted in this city but left shortly after and joined the Fourth Indiana regiment and is now stationed at Ft. Benj. Harrison.

**SOLDIERS' LETTERS**

A letter from Ross Robinson, Company 119, Fort Crook, Neb., to his mother, Mrs. John Robinson, Logan avenue, R. D. No. 1, Newark, says in part:

"I have my uniform now, our company having received uniforms this afternoon. I received a hat, two shirts, a coat, one pair breeches, one pair leggings, four pairs socks, three suits of underwear, one hat cord, one identification tag and cord, and already had one pair of shoes, two blankets, four sheets and two mattress covers. I put in two hours drilling this morning and they are drilling three companies together now, which is 105 men."

"I do not know how long we are going to stay here, but I hear we shall leave as soon as we are all equipped. We all have two more shots at one in our right arm yet and they come in ten days apart."

"Wherever we go it cannot be any nicer place than this. The place is 15 miles from any large city and can get a street car to Omaha every hour. The barracks are large and plenty of fresh air. Mess rooms are on first floor back of barracks. Toilet room, bathroom, shower, bath and places to wash clothes are in the basement."

"The Y. M. C. A. has something doing every night and plenty of music and reading material. The fellows cannot get anything strong to drink. They are a noisy bunch but are orderly. They have equipped seven companies today already. I surely costs Uncle Sam a nice bunch of money to equip an army. We have not received overcoats yet, but expect to get another pair of shoes, one more blanket, and overcoat or rubbercoat later. This home is charged to each one and he has to take care of it and pay for it if he loses it."

John S. Wilson, Company B, 166th U. S. I., camp Mills, Hempstead, N. Y., writes: "The boys are well and camp is fine. We took a 12-mile hike and saw a parade of 20,000 of our 27,000 men in camp. I am sending poem and one of the boys in the small arms ammunition train."

"A hard job to whip the Kaiser" but the Old Red White and Blue will do it."

Suppose a heavy arms ammunition train had sent this? Here are the lines:

It is a hard job to whip the Kaiser.  
 It is a hard job to whip the Kaiser.  
 And the allies know it, too.  
 Good-bye dear old England, farewell to France and Russia, too.  
 It is a hard job to whip the Kaiser.  
 But it takes the old Red, White and Blue.

Mr. R. A. Strong of South Sixth street, received a letter Monday from B. R. Hannum (95 East Church street, Newark) who is "somewhere in France." The letter dated August 23, follows:

"This will let you know that we arrived in France O. K. and are feeling fine. We were on the water about 2 weeks and in England five or six days. We marched in London last Thursday. I suppose you read about that in the papers there."

There were about 5000 of us all of whom were railroaders. Of course this life is a long way from being soft but it seems to agree with Jones and myself as I never felt better in my life. We were close to the trenches once on our way here, about eight or ten miles from the front line. I guess and airplanes and balloons were flying around by the dozen. I don't feel that we are in much danger here, in fact I feel just as safe as I would at home. I don't know just where we are going to work, yet, we will go from this camp to where we will work. I suppose we will be hauling some of those drafted men to the trenches soon now. Tell Sandy Owens that we will be looking for him. I bet he wishes he had taken our advice now. Some difference between the railroads here and in the United States. Passenger trains are the only trains that they use all on and chairs are used on all cars to couple with. There are some engines here about as large as the B. & O. 2100 class and I think that some are a little larger, but the largest freight cars that I have seen are 16 tons capacity but they are mostly ten and twelve tons. The average train is about forty of these cars, although in England I saw a few of fifty and fifty-five cars. The freight wouldn't equal more than 15 or 16 of the cars over there. The Germans once occupied the country we are in now but have been driven out by the French and English

**troops but they sure did put it out of business before they left. There were several good sized towns around here a year ago and now there are very few left standing. The people over there don't really know that there is a war going on but I haven't seen a man over here between the ages of 21 and 35 without a uniform on. I think we will get a leave for a few days some time soon and if we do I want to take a trip to Paris. It doesn't cost a soldier anything to ride on trains in this country. I am sending you my address. I want you to be sure and write soon by that I mean at once and give us all the news. Give our regards to all the boys. So long. E. R. Hannum, Co. C, 14th Engineer's (Railway) American Expeditionary Force in France, care Adjutant General's Office, Washington, D. C.**

Raymond Strong, 30 South Sixth street, has just received a letter from his friend John R. Jones now in France saying:

"This is some place. Trenches wire entanglements, holes, where shells burst. We saw an air fight and can hear the big guns. I think we will run a broad gage."

Mr. Jones is with Co. C, 14th Railway Engineers and his address is American Expeditionary Force in France, care of Adjutant General, Washington, D. C. Mr. Jones was a B. & O. switchman here. His home is in North Gay street. Mr. Strong has ordered The Advocate mailed daily to Mr. Jones in France.

Mr. Hannum's name was already on The Advocate's mailing list.

The morning mail brought to The Advocate a postcard from Arch B. Leedy, 23 East Holiday street, who is a machinist's mate on board the U. S. S. Jacob Jones, acknowledging receipt of The Advocate's bronze service medal. The printed card reads as follows:

"Nothing is to be written on this side except the dates and signature of the sender. Sentences not required may be crossed out. If anything else is added the postcard will be destroyed."

I am quite well.  
 I have been admitted into hospital (wounded) (sick) and am getting on well and hope to return to duty soon.

I have received your (letter dated ) (parcel ) .  
 I have been (am) on sick list. Nothing serious.  
 Letter follows at first opportunity. I have received no letter from you (for a long time) (lately).  
 Signature only

Mr. Leedy's card dated Sept. 9 was passed by the censor Sept. 10. He crossed out part of the words above leaving his message as follows: "I am quite well. I have received your parcel Sept. 9, 1917. Letter follows at first opportunity."

**CHORISTER BENSON DIES SUDDENLY ON CHURCH PLATFORM**

As he passed out the hymn books prefatory to the opening hymn for the evening services at the East Main Street U. B. church, Sunday evening, Henderson Benson, 42, dropped dead.

The deceased has been choir leader at the church and was arranging his evening task, when death overtook him. He had been a sufferer from heart trouble, which resulted in his death. The congregation had just assembled and Dr. C. J. Dillon was called but life was extinct when he was carried to the back of the church, the attending physician stated the heart was greatly enlarged.

Mr. Benson was aged 42 years, 5 months and 17 days and resided at 27 North Williams street. He has been employed in the cutting department at the E. H. Everett company. He is survived by his wife.

No arrangements have been made for the funeral.

**SEND HOME PAPER TO SOLDIERS**

For the next ten days The Advocate will accept orders for delivery of this newspaper daily by mail to the soldier boys at the rate of 25 cents a month. The address may be changed as often as necessary and the home paper will follow the soldiers to France. Many of the Licking county boys now at the Chillicothe, Montgomery, Ala., Indianapolis and New York camps are receiving Advocates every day through the courtesy of friends or relatives back home. It is a little thing to do, but it costs less than a penny a day—but it is the little things that count. Ask the boys who are home on furlough if they like to receive the home newspaper. Now, while you think of it, send an order to The Advocate to start the paper daily to that soldier or sailor boy who is in the service. The rate up to October 1st will be 25 cents the month for the paper by mail.

**Doctor Tells How To Strengthen Eyesight 50 per cent In One Week's Time in Many Instances**

**A Free Prescription You Can Have Filled and Use at Home**

Philadelphia, Pa. Do you wear glasses? Are you a victim of eye strain or other eye weaknesses? If so, you will be glad to know that according to Dr. Lewis there is real hope for you. Many whose eyes were failing say they have had their eyes restored through the principle of this wonderful free prescription. One man says, after trying it: "I was almost blind; could not see to read at all. Now I can read everything without any glasses, and my eyes do not water any more. At night they would pain dreadfully; now they feel fine all the time. It was like a miracle to me. A lady who used it says: 'The atmosphere seemed hazy with or without glasses, but after using this prescription for fifteen days everything seems clear. I can even read fine print without glasses.' It is believed that thousands who wear glasses can now discard them in a reasonable time and multitudes more will be able to strengthen their eyes so as to be spared the trouble and expense of ever getting glasses. Eye troubles of many descriptions may be wonderfully benefited by following the simple rules. Here is the prescription: Go to any active drug store and get a bottle of Bon-Opto tablets. Drop one Bon-Opto tablet in a fourth of a glass of water and allow to dissolve. With this liquid bathe the eyes two or three times daily. You should notice your eyes clear up perceptibly right from the start and inflammation will quickly disappear. If your eyes are bothering you, even a little, take steps to save them now before it is too late. Many hopelessly blind might have been saved if they had cared for their eyes in time.

Note: Another prominent physician to whom the above article was submitted, said: "Bon-Opto is a very remarkable remedy. Its constituent ingredients are well known to eminent eye specialists and widely prescribed by them. The manufacturers guarantee it to strengthen eyesight 50 per cent in one week's time in many instances. I feel should be kept on hand for regular use in almost every family. It is sold in this city by T. J. Evans and other druggists."

**GRATIOT BOY MAY BE DISFIGURED FOR LIFE BY ACCIDENT**

Carl Martin, aged 4, the son of Dr. and Mrs. Martin of Gratiot was badly injured, late Friday, on the West Pike between Newark and Gratiot when the automobile driven by Dr. Martin was struck by a machine driven by a man whose name could not be learned. He received numerous deep cuts about the face and head from falling glass from the windshield of the machine.

Dr. Martin was driving his machine at a reasonable speed when the other automobile dashed around a sharp curve in the road and collided with the Martin machine. A physician from Zanesville was called and dressed the Martin lad's injuries. It is stated the young lad will be disfigured for life from his injuries.

## Your New Suit Or Coat Is Here Today

You may start out to shop for your fall garments and find conditions have taken a serious change. Fabrics are jumping in price, yet you need superior quality materials in your coats and suits so that the style lines will remain true and shapely. You can probably find no better assurance of quality than the WOOLTEX Label. It stands for more than style. It stands for the sort of tailoring and fabrics you need to keep your suit or coat fresh and smart looking, even after months of service.

### ASK US MORE ABOUT WOOLTEX

The showing right now is full of interest. Come and look. Just a word about early buying. There is a great pleasure in having the new styles when they are new and being among the first to wear them; in being ready for every autumn day. Why not enjoy them during this period?

### FALL FASHIONS IN FURS SPECIAL DISPLAY ALL THIS WEEK

In addition to our own large stock of new furs, we will have on display all this week a special showing of fine pieces from our furrier. Our stock contains all the late styles of large throws, flat collars, the new shapes in muffs, in all the fine furs including lynx, mink, beaver, seal, wolf, foxes of all kinds.

RIGHT NOW IS THE TIME to make your selection of furs. The early bought furs are always made of the finest selected skins, and the woman who wants beautiful furs will be wise if she buys them now, when she has the advantage of a full line of choice furs to select from, as well as getting the pleasure of a full season's wear.

### HANDSOME DRESSES THAT YOU WILL LIKE

Stylish new models, appropriate for all occasions. Some straight line, others with more fitted effect. Our showing includes crepe de chimes, charmeuse, taffeta, alone, or in combination with georgette crepe, in all the season's fashionable colors. Serge dresses in the always wanted navy blue, as well as other pretty shades. Some with soutache braid in numerous colors, others with embroidered designs, others with fancy buttons or a fancy silk finish around the collar and cuffs.

COME IN THIS WEEK—Now is the time to see the new things and make your selections.

## A DALZELL USER COMES TO FRONT FOR NERV-WORTH

Mrs. Clark King Praises the Tonic.  
So Does J. W. Farley, of Marietta.

These two most convincing statements were very recently made in writing to Will S. Richardson, the Marietta Nerv-Worth druggist: "I have suffered greatly with stomach trouble and nervousness for some time. After taking one bottle of Nerv-Worth I feel greatly improved. I would advise all sufferers to try a bottle of Nerv-Worth." "Druggist T. J. Evans sells Nerv-Worth in Newark. Your dollar back if it does not do for you what it did for Mrs. King and Mr. Farley."

At Hebron, the Hebron Drug store sells Nerv-Worth; at Utrich, the Utrich Drug store; at Granville, W. P. Ullman; at Johnstown, C. S. Howard.

## CONVERTED "VODE" SINGER TAKES UP CHURCH WORK

At the tent meeting on East Main street Sunday, Evangelist Fred Canaday, converted vaudeville singer spoke to a large crowd. He told how he had been converted in a Methodist church in East Liverpool and immediately went to work preaching the gospel. He started a Sunday school class in his home church with five members and at the time he left the home church the class numbered 300, many being now in evangelistic work. He sings at every service at the tent. Rev. Mr. Short preached in the evening on "What shall it profit a man if he gain the whole world and lose his soul?" Services each evening at 7:30 o'clock.

## PEASANTS IN RUSSIA WILL HAVE MAJORITY IN DEMOCRATIC CONGRESS

(ASSOCIATED PRESS TELEGRAM)  
Petrograd, Sept. 24.—The democratic congress, according to the present program will be composed of 1,500 members but demands to participate are arriving from political organizations from all parts of the country and the definite composition of the congress has not been decided. As the organization committee has decided to give a small number of seats to representatives of professional and industrial associations the middle classes will not be altogether excluded. The overwhelming majority of the members, however, will represent the peasantry.

## SYRUP OF FIGS FOR CROSS, SICK FEVERISH CHILD

If Little Stomach is Sour, Liver Torpid or Bowels Clogged.

Mothers can rest easy after giving "California Syrup of Figs," because in a few hours all the clogged-up waste, sour bile and fermenting food gently moves out of the bowels, and you have a well, playful child again. Children simply will not take the time from play to empty their bowels, and they become tightly packed, liver gets sluggish and stomach disordered. When cross, feverish, restless, see if tongue is coated, then give this delicious "fruit laxative." Children love it, and it can't cause injury. No difference what ails your little one—if full of cold, or a sore throat, diarrhoea, stomachache, bad breath, remember, a gentle "inside cleansing" should always be the first treatment given. Full directions for babies, children of all ages and grown-ups are printed on each bottle. Beware of counterfeit fig syrups. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," then look carefully and see that it is made by the "California Fig Syrup Company." We make no smaller size. Hand back with contempt any other fig syrup. (Adv.)

## TEMPLARS PLAN TRIP TO STATE CONCLAVE

Tonight a committee from St. Lukes Commandery, Knights Templars, of Newark, will confer with a similar committee from Cyrene Commandery, Zanesville, relative to making the pilgrimage to Springfield together on Wednesday, Oct. 10, the occasion of the state convocation of Ohio Templars. Coshocton, Uhrichsville and New Lexington templars may combine, if possible, to make a full train for this occasion.

## AUTO HITS SPEEDER AT GRADE CROSSING; TWO BADLY INJURED

Joseph Bushew, section foreman of the B. & O., residing at 83 Fleek avenue and Henry Talbot, a B. & O. lamp lighter, residing in South First street, were badly injured Sunday afternoon about 3:00 o'clock when a gasoline motor railway speeder collided with the five passenger touring car of Elmer Hartman, of North street at the Locust Grove schoolhouse B. & O. crossing near Dorsey's mill, on the Dog Leg road southwest of this city. The men had been doing track duty and were on their way to this city. Mr. and Mrs. Hartman and three friends were occupants of the auto. As the machine approached the crossing Mr. Hartman was telling the visitors of its dangerous location, owing to the fact that it can not be seen by the driver until he is almost upon it. Mr. Hartman states that he was exercising the greatest caution and that just as he reached the track the speeder came along and struck him squarely. The impact forced the speeder back on the track, throwing off both men. The left front wheel of the auto came off and the machine was forced up the railroad right of way for a distance of 30 feet and landed upon Mr. Talbot, doubling him up. Occupants of the machine succeeded in getting it off the injured man and then they rendered first aid as best they could. Criss Bros. ambulance brought the men to this city and they were taken to the Newark Sanitarium, where Drs. J. G. Shirer and D. M. Smith attended them. Today Mr. Bushew is in a precarious condition. He was badly bruised about the chest and body and it is thought that he is injured internally. Mr. Talbot is badly injured about the back and for a time it was feared that it might have been fractured. He also received numerous cuts and bruises on legs and arms. Physicians give hope of his recovery.

## BANKRUPTCY PETITION OF MRS. EDW. OLIVER FORMERLY OF NEWARK

Chicago, Ill., Sept. 24.—Edward Oliver, "union king" of Indiana, husband of Mrs. Margaret Springer Oliver, who several months ago filed a petition in bankruptcy, saying she had liabilities of \$2,133,322 and assets of \$2,370,000 was ordered to appear before Judge Carpenter.

Attorney David Stansbury, counsel for Mrs. Oliver, told the court that Mr. Oliver expects to sell 200,000 bushels of onions within a few days at \$2.50 a bushel, and also had found a purchaser for some real estate he owned in Chicago, and if given time is ready to pay his wife's debts.

Attorney James Condon, for the Central Trust company, appointed receiver for Mrs. Oliver, told the court that Mr. Oliver was in debt himself and that the sale of the on-

ions and real estate would barely cover his obligations. Mrs. Oliver was formerly Miss Marguerite Maginness of Newark, Ohio.
